get better results with high quality content exercise sets and step by step pedagogy the miller o neill hyde author team continues to offer an enlightened approach grounded in the fundamentals of classroom experience in basic college mathematics the text reflects the compassion and insight of its experienced author team with features developed to address the specific needs of developmental level students throughout the text the authors communicate to students the very points their instructors are likely to make during lecture and this helps to reinforce the

concepts and provide instruction that leads students to mastery and success also included are problem recognition exercises designed to help students recognize which solution strategies are most appropriate for a given exercise these types of exercises along with the number of practice problems and group activities available permit instructors to choose from a wealth of problems allowing ample opportunity for students to practice what they learn in lecture to hone their skills in this way the book perfectly complements any learning platform whether traditional lecture or distance learning its instruction is so reflective of what comes from lecture that students will feel as comfortable outside of class as they do inside class with their instructor

in the early 1920s waterloo businessman henry b allen donated 200 000 and 80 acres of land to the allen memorial hospital association to establish a hospital in memory of mary his wife the hospital opened in 1925 and was operated by the deaconess hospital association of the evangelical church the school of nursing was founded in 1925 but a lack of resources during the depression forced the hospital into receivership and the school was closed hospital management was assumed by the lutheran good samaritan society in 1938 and the school reopened in 1942 as the allen memorial hospital lutheran school of nursing in 1989 the school became allen college of nursing a degree granting institution today as allen college unitypoint health it offers an associate degree in radiography bachelor of science degree in nursing bachelor of health science degree with majors in diagnostic medical sonography nuclear medicine technology medical laboratory science public health and dental hygiene master of science degrees in nursing and occupational therapy and two doctoral degrees in health professions education and nursing practice throughout its 90 year history allen college has remained faithful in its mission to prepare health care professionals for their roles in society

when julie miller began writing her successful developmental math series one of her primary goals was to bridge the gap between preparatory courses and college algebra for thousands of students the miller o neill hyde or m o h series has provided a solid foundation in developmental mathematics with the miller college algebra series julie has carried forward her clear concise writing style highly effective pedagogical features and complete author created technological package to students in this course area the main objectives of the college algebra series are three fold provide students with a clear and logical presentation of the basic concepts that will prepare them for continued study in mathematics help students develop logical thinking and problem solving skills that will benefit them in all

aspects of life motivate students by demonstrating the significance of mathematics in their lives through practical applications

today over 75 percent of high school seniors aspire to graduate from college however only one third of americans hold a bachelor s degree and college graduation rates vary significantly by race ethnicity and parental socioeconomic status if most young adults aspire to obtain a college degree why are these disparities so great in from high school to college charles hirschman analyzes the period between leaving high school and completing college for nearly 10 000 public and private school students across the pacific northwest hirschman finds that although there are few gender racial or immigration related disparities in students aspirations to attend and complete college certain groups succeed at the highest rates for example he finds that women achieve better high school grades and report receiving more support and encouragement from family peers and educators they tend to outperform men in terms of preparing for college enrolling in college within a year of finishing high school and completing a degree similarly second generation immigrants are better prepared for college than first generation immigrants in part because they do not have to face language barriers or learn how to navigate the american educational system hirschman also documents that racial disparities in college graduation rates remain stark in his sample 35 percent of white students graduated from college within seven years of completing high school compared to only 19 percent of black students and 18 percent of hispanic students students socioeconomic origins including parental education and employment home ownership and family structure account for most of the college graduation gap between disadvantaged minorities and white students further while a few asian ethnic groups have achieved college completion rates on par with whites such as chinese and koreans others whose socioeconomic origins more resemble those of black and hispanic students such as filipinos and cambodians also lag behind in preparedness enrollment and graduation from college with a growing number of young adults seeking college degrees understanding the barriers that different students encounter provides vital information for social scientists and educators from high school to college illuminates how gender immigration and ethnicity influence the path to college graduation
