the greatest game of all or rugby league as it is known to some has given me nearly a half
a century of pleasure and a little pain in 1966 at the ripe old age of 6 i was introduced to
our game when my uncle harry moved into the bedroom i shared with my younger brother
in a 2 bedroom fibro joint in rockdale dragon territory harry was playing lower grades for
jack gibson s roosters and went on to play for st george in the 1971 grand final against my
other front rower mate john sattler and his rabbitoh s by the age of 9 i had memorized
every player in the big league magazine the game became my obsession even if i had not
been lucky enough to play over 100 games in the best competition in the world arguably in
any sport rugby league was in my blood as a rothmans medal winner the official player of
the year award in 1983 succeeded by the dally m medal i have always been aware of the
history of our great game and its effect on society especially in the northern states of
australia apart from obtaining a law degree at sydney university i studied the politics in
sport while completing my arts degree at macquarie university i believed our game was
ahead of sports like baseball gridiron and basketball that relied heavily on statistics to rate
their great players ours is a game of passion made for the blue collar working classman

relying on guts and determination not on how many yards and minutes someone makes or plays however as we get older we all like to dig deep into history and see who had the ability and drive to play even one game in the toughest competition playing the greatest game of all this book does what none other has attempted to do tell a story using numbers and statistics about our great game it is something every player and fan would do well to study
