the cosmology that underlies the pythagorean illuminati s ancient religion of illuminism is based on six dimensions three of real space and three of imaginary space discover how this model explains all of the mysteries of einstein s special theory of relativity and quantum mechanics and disproves the theoretical basis of m theory this book explains the true nature of time and the speed of light and thereby explains how god the soul and the afterlife are all inevitable this is extremely complex philosophical mathematical and scientific material that reveals the staggering difference between the childish cosmology of the abrahamists compared with that of the illuminati no scientific materialist would find it easy to reveal any flaws in the illuminati s six dimensional cosmos on the contrary illuminism exposes the enormous holes in the ideology of scientific materialism

the greatest success of the bavarian illuminati conspiracy was the french revolution of 1789 the profound impact of that revolution is felt to this day in the political destinies of billions of people worldwide the illuminati had declared war against church and state a decade earlier and worked feverishly to spread their new gospel of liberty and reason although the order was officially suppressed on the eve of the revolution its efforts do not appear to have been in vain the recruiting program of illuminati founder adam weishaupt was focused on attracting the powerful and influential government ministers educators the press authors and philosophers booksellers and publishers even religious leaders open to agnostic or atheist views many such men belonged to the masonic lodges of germany austria and france the wider masonic network offered weishaupt a respectable vehicle by which he was able to propagate his clandestine doctrines what message does the triumph of these secret societies carry for the modern world english historian una birch attempts to answer this question from the point of view of the early twentieth century writing just a hundred years after the event her closeness in time and sympathy for the revolution offer a unique perspective to the modern reader editor

james wasserman adds a contemporary perspective that takes into account the events of the twentieth century that occurred after ms birch wrote he has also added a guide to the history and personalities of the french revolution to help clarify the text reveals the secret activities of the bavarian illuminati and the freemasons in organizing the french revolution traces the influence of the mysterious illuminati agent the comte de saint germain as he traveled through the courts and cities of europe offers a unique perspective on the revolution by an author who supported the illuminati war against tyranny and superstition yet does not shrink from examining the darker side of that event

how are the origins of the french revolution the murder of the romanovs the design of the dollar bill and the roswell ufo incident connected the answer is one of the world's most mysterious and feared secret societies the illuminati references to the illuminati span centuries yet reliable historical evidence is scant what is known is that on 1 may 1776 at the height of the european enlightenment adam weishaupt a professor of canon law at the university of ingolstadt in bavaria founded a secret society of freethinkers or enlightened ones the illuminati the group was formed to discuss and disseminate the radical philosophies of the day and secrecy was crucial to its survival neither church nor crown would have countenanced the group's anticlerical and antimonarchist ideas at its height the illuminati numbered 2 500 with members across europe including some of the period's leading thinkers yet just 12 years after the group's founding it was disbanded by a governmental edict and the illuminati ceased to exist or did it for nearly 250 years references to the illuminati and its alleged influence on major world events have continued to resurface there are those who claim the illuminati is much older than its first recorded incarnation suggests dating its origins to the time of the pyramids and others who believe the group is literally not of this planet but part of an alien culture bent on taking over the earth this book looks at the reality and the myths questions the allegations and explores how fears about the group have taken many different forms whether fear of intellectuals during the enlightenment or fear of communists during the mccarthy era an internet search reveals that belief in the group's shadowy influence is positively thriving what does that say about us today and are we right to be afraid

this book demonstrates that the old secret societies were driven by the same impulse as anonymous and wikileaks are today these marginalized groups have always rebelled against the establishments some subversively by spreading progressive ideas through art and literature while others are far more proactive driving revolution and exposing government secrets the illuminati founded in 1776 aimed to rid europe of the ruling aristocracy and religious control of education politics and science they supported the age of enlightenment and were accused of fuelling the dissent that culminated in the french revolution since that time the term illuminati has become a meme giving a name to a secret network believed by conspiracy theorists to control the world these were depicted as pranksters working in the shadows to manipulate society it was in this climate of pranks memes and conspiracy theories that the hacktivist collective anonymous were born their ideals of freedom from censorship and the empowering of societies against their rulers make them the spiritual successors of the illuminati the kindling of the french revolution by the illuminati has found a modern counterpart in how anonymous and wikileaks played a key role in the arab spring uprisings using the internet as a new weapon against dictatorships it is the same battle fought by secret societies for a millennium but the new inquisition has shifted its focus from secret societies to wage a

war on the connected communities of the internet age this is the story of that war and how you need to be a part of it
