today the meaning of literacy what it means to be literate has shifted dramatically literacy involves more than a set of conventions to be learned either through print or technological formats rather literacy enables people to negotiate meaning the past decade has witnessed increased attention on multiple literacies and modalities of learning associated with teacher preparation and practice research recognizes both the increasing cultural and linguistic diversity in the new globalized society and the new variety of text forms from multiple communicative technologies there is also the need for new skills to operate successfully in the changing literate and increasingly diversified social environment linguists anthropologists educators and social theorists no longer believe that literacy can be defined as a concrete list of skills that people merely manipulate and use rather they argue that becoming literate is about what people do with literacy the values people place on various acts and their associated ideologies in other words literacy is more than linguistic it is political and social practice that limits or creates possibilities for who people become as literate beings such understandings of literacy have informed and continue to inform our work with teachers who take a sociological or critical perspective toward literacy instruction importantly as research indicates the disciplines pose specialized and unique literacy demands disciplinary literacy refers to the idea that we should teach the specialized ways of reading understanding and thinking used in each academic discipline such as science mathematics engineering history or literature each field has its own ways of using text to create and communicate meaning

accordingly as children advance through school literacy instruction should shift from general literacy strategies to the more specific or specialized ones from each discipline teacher preparation programs emphasizing different disciplinary literacies acknowledge that old approaches to literacy are no longer sufficient literacy in teacher preparation and practice enabling individuals to negotiate meaning introduces the reader to a collection of thoughtful research based works by authors that represent current thinking about literacy across disciplines and the preparation of teachers to enter classrooms each chapter focuses on teaching guided by literacies across disciplines and the preparation of teachers who will enter classrooms to instruct the next generation of students

educators play a significant role in the intellectual and social development of children and young adults thus it is important for next generation teachers to have a strong educational background as it serves as the foundation to their understanding of learning processes leadership and best practices in the field of education innovative practices in teacher preparation and graduate level teacher education programs presents critical and relevant research on methods by which future educators in high level courses are equipped and instructed in order to promote the best experience in academic scholarship featuring discussion on a diverse assortment of topics such as social justice for english language learners field based teacher education and student satisfaction in graduate programs this publication is directed at academicians students and researchers seeking modern research on the approaches taken by instructors to qualify and engage future educators
