about the book on january 15 1947 betty bersinger pushed her daughter in a stroller past a vacant lot in los angeles california she was on her way to pick up a pair of repaired shoes for her husband when she saw the body of elizabeth betty short lying just off the sidewalk bersinger initially mistook the body for a mannequin but upon closer inspection realized it was the body of woman she immediately contacted the police

and touched off one of the most notorious unsolved cases in the history of the united states immediately the gruesomeness of the crime caused a sensation betty short s torso had been severed in two and there were slash marks from the corners of her mouth to each ear she d been drained of blood cleaned and then posed with her arms bent at right angles her arms and legs showed signs of being tied up or hung upside down and she had injuries from blows to the head the lack of blood led the police to determine she was killed elsewhere and dumped in the vacant lot they also concluded that she d been left sometime after 2 00 a m because there was no dew on her body excerpt from the book the initial investigation was hindered by the fact that the media and gawkers were on the scene before police and damaged the crime scene the police had difficult time piecing together the events from the time short was last seen on january 9th at the biltmore hotel and when her body was found on january 15 however a full out effort was made to find the killer the police canvassed the neighborhood talked to the last person known to have seen short robert manley and interviewed all her old boyfriends the clean cut of her wounds led the police to suspect the murderer was someone with surgical skill and went so far as to get a list of medical students from the nearby university of southern california as many as 50 people confessed to the crime and many more indicated they d seen short during the time she d last been seen alive and found on january 15 however the confessions and sightings were dismissed several men were interrogated but no arrest was made nine days after her body was discovered the local newspaper the examiner received a call and documents in the mail presumably from the murderer the package contained short s birth certificate social security card photographs major matthew gordon s obituary and an address book with mark hanson s name embossed on it with the names of several men listed in side all the men were contacted and cleared the men reported having met short and bought her a drink or dinner but lost contact with her when she let them know she wasn t interested in a physical relationship a day after the package with short s belongings arrived at the examiner her handbag and one of her shoes was found near a dumpster several miles from where her body was found none of these items helped the police find her killer over the last sixty five years old suspects have been revisited and new suspects have been postulated but the official status of the crime remains unsolved buy the book to continue reading

includes pictures profiles short s life and death and the theories and suspects includes footnotes online resources and a bibliography for further reading includes a table of contents the body was just a few feet from the sidewalk and posed in the grass in such a way that the woman who discovered it reportedly thought it was a mannequin at first despite the extensive mutilation and cuts on the body there wasn t a drop of blood at the scene indicating short had been killed elsewhere an extensive manhunt followed but the killer has never been identified the fbi the latter half of the 1940s found the major cities of post war america in a precarious position on the one hand population centers were reabsorbing many thousands of returning veterans into the work force and into a social system they had not experienced for some years previous relationships had

changed during their absence and many were starved for female company while making the necessary readjustments to the war's end major cities such as New York, Chicago, Cleveland, and Los Angeles were plagued by regionalized mob rule behind the scenes of the entertainment industry from clubs and casinos to print and film media included in the list of supporting institutions and side markets were studios, liquor manufacturing and all peripheral markets connected with gambling and prostitution in the years following World War II. Los Angeles and other large American cities were hit with a series of brutal murders that in many ways fit into distinct patterns across the country. The Los Angeles Police Department was overwhelmed, caught up dealing with mob activities, inner corruption, a regional press that brazenly invaded legal confidentiality within the walls of the police department itself, and a lack of advanced technology. As a result, several of the most highly publicized murders committed against young female newcomers went unsolved in perpetuity and they have remained topics of conversation among crime enthusiasts well into the following century. That said, one of these crimes stands above the others as an iconic example of unthinkably grotesque savagery, a psychopathic act equal to any horror movie. Hollywood has produced the January 1947 murder of Elizabeth Short, famously dubbed the Black Dahlia, by an engrossed press and public. The investigative case of Elizabeth Short was and still is filled with speculative suspicion so saturated with circumstantial evidence that to accuse a perpetrator outright is all but impossible without immediate qualification and backtracking from the claim. The horrific physical realities of the crime reach out in many directions toward medical practitioners, the arts, the mob writers, and in every case, the macabre conclusions are scarce and fragile. Even as the possibilities seem endless, decades after the fact, the world still cannot say for certain what sort of young woman Elizabeth Short really was, nor can anyone trace her activities or whereabouts in the timeline of her final days with absolute certainty. However, the indelible photographs of Short's savaged body following its discovery on a clear January morning and the scientific reports that attempt to describe her final hours remain at the forefront of graphic human atrocities within America's criminal files. The Black Dahlia case, the history of the unsolved murder of Elizabeth Short, looks at LA's most famous murder and the theories and speculation behind who did it, along with pictures of important people, places, and events. You will learn about the attempt to identify the Black Dahlia like never before in no time at all.
