underpinned by a hybrid methodology ranging from social sciences to human sciences this book parses mediation in four perspectives which stands as an unparalleled methodological approach so far mediation has long been tethered to piecemeal and haphazard approaches which have flatly failed to capture the gist of the uniqueness of this often poorly latched on and poorly understood dispute resolution mechanism this book argues that in order to fully grasp the richness of such dispute resolution mechanism mediation must be parsed in four tiers the first tier is the social dynamics of mediation the second tier is the cultural dynamics of mediation the third tier is the legal dynamics of mediation the fourth tier is the cross border and cross cultural dynamics of mediation taken together the four tiers that premise the four tiered model of mediation seek to unlock the finding in view of which law and social reality are tightly interlocked in this vein it is the underlying social reality of a given jurisdiction that should dictate the design of a pre suit court connected mandatory mediation with an easy opt out a central claim of both social dynamics of mediation the first tier of the four tiered model of mediation and legal dynamics of mediation the third tier of the four tiered model of mediation

this book casts an analytical eye on the legal dynamics of mediation premised on a multidisciplinary approach this is the very first book to meld mediation and applied psychology with a view to portray the myriad of cognitive biases with which the great bulk of legal actors grapple tussle with in mediation settings the overriding goal of this book is to provide a multidisciplinary comprehensive and full fledged framework to legal dynamics of mediation while emphasizing the paramount importance of incorporative mediation to protect the fundamental rights of the weakest disputant in the room something that has not been done yet this book is the very first one to provide a framework frame of reference to the usage of artificial intelligence in the remit of both mediation settings and restorative relationship session rrs

this timely book discusses the application of the eu competition rules to pharmaceuticals covering the prohibitions on anticompetitive agreements and
