the creation has been a topic of debate for centuries by the very beneficiaries
of that creation mankind there are two main schools of thought the universe
was created in one big bang and through the process of evolution all life was
created including human life the universe was created by elohim god with
humans as the primary beneficiaries created in the image and likeness of their
creator this book cover the creation of the heaven and the earth using
scripture to support that the creation was done in god s time to sustain life
that the heaven and earth was created with purpose and mankind is the
beneficiary of the creation it explains the biblical creation day by day
emphasizing the creation of the universe was more than just chance it was a
revelation of elohim s foresight prescience to create beings that would one
day become children of god

the beginning of genesis represents the basic foundation of the entire bible if
the reader does not understand the foundational truths then he will likely
misunderstand the rest of the book the truths that follow stand or fall upon the
foundation of the first few chapters of genesis this book is a personal passion
of my heart from a conservative viewpoint of god s creation of the world
things did not just come into existence by some cosmic accident or chance
but by an ingenious designer creator that purposed every facet of his perfect
creation many individuals have been deceived with the teachings and the lies
of evolution such as man arriving from a monkey some teachers have used
these lies that the earth is billions of years old however the bible clearly
teaches that creation came to pass just over 6 000 years ago those years are
well documented in genesis and other bible accounts since my first degree
was in science it is my desire to show every person possible that the bible is
absolutely true and completely trustworthy the truth is that science is
attempting to catch up with biblical truth yet it never will that is because the
creator of this vast universe is so far advanced of all scientific discoveries that
man will never be able to reach that super human level of wisdom god
possesses unlimited understanding of creation that man will never achieve in
the beginning every single thing made was perfect until man committed sin in
genesis 3 my desire is to inspire all who are seeking to uncover the truth

about creation to study those conservative teachings about life and how human beings arrived on earth there is absolutely no scientific evidence of any humans living on any of the other planets god announced early in genesis that his focus was upon the heavens and the earth which is taught throughout the bible he never mentions about man getting to another planet but he does desire that all humans go to heaven the provision for man to go to heaven is through the blood of jesus since this is the only way

hyun joo kim claims that bonhoeffer transforms and reconstructs the augustinian doctrine of original sin by shifting the hamartiological premise from the doctrine of god to the doctrine of the church based on his lutheran resources in bonhoeffer s view augustine s doctrine of original sin does not fully relate the doctrine of sin to the responsibility of the saints in order to reform augustinian hamartiology bonhoeffer appropriates augustine s notion of the church as the whole christ totus christus which is located in augustine s ecclesiology kim explicates how augustine relates his epistemological premises in his christianized platonism to his formulation of the doctrine of original sin and examines how luther s christocentric standpoint transforms augustine s anthropology and ultimately leads luther to his relational hamartiology kim contends that bonhoeffer s later hamartiology and ethics contain the most distinctive characteristics of bonhoeffer s doctrine of sin in that he not only incorporates both the active and passive dimensions of sin but also intensifies his continuing notion of vicarious representative action towards the church community
