new understandings of twin relationships takes an experience based approach to exploring how twin attachment and estrangement are critical to understanding the push and pull of closely entwined personal relationships based on the research expertise of each of the authors all identical twins in their own right and vignettes from twins across the globe this book describes the inner workings of the twin world showing how the twin world creates experiences that are often more intense and intricately textured than those in the singleton world chapters debunk myths surrounding twinship and analyze the developmental stages of the twin relationship as well as the effect of being a twin on one's mental health from different perspectives the authors articulate how attachment separation anxiety loneliness estrangement and the subjective experience of the twin and non twin other impact behavior thinking and feeling through its careful study of the many psychological challenges that twins face throughout their lifetime this text will help psychologists scholars clinicians and twins themselves attain a deeper understanding of all interpersonal relationships

the study is set against the backdrop of the urbanization trend in present day china and focuses on the relationship between farmers who have lost their land land lost farmers and local government particularly it applies the extended case method to answer the following two questions first in what ways do the forces of integration and conflict manifest themselves in the relationship between land lost farmers and local government second how do land lost farmers and local government apply respective modalities in the context of their interplay the main finding is that the two groups land lost farmers and officials are engaged in a complex and dynamic relationship that relationship is played out locally within a network of power interest structures which not only manifests itself as forces of integration and conflict but also as an ongoing process a game played by knowledgeable agents whose strategies are enacted and in so doing both reproduce that game and alter it readers will gain an ethnographic understanding of the relationship based on an in depth examination of perspectives on both sides of the equation

phenomenography offers a distinctive approach to studying human experience of the world by highlighting different ways in which the same phenomena concepts objects events are experienced within any group of people phenomenography focuses on the relationship between meaning people's holistic understanding of phenomena and structure that is the part whole structure of people's awareness of phenomena this structure of awareness then forms the basis for identifying differences in the experienced meaning of phenomena and how awareness needs to change to allow new meanings to emerge whether educationally historically culturally or socially over its 50 year history there have been substantial advancements in the methods and theoretical assumptions underlying phenomenographic research but these developments are not always recognised this book details how the 21st century practice of phenomenography differs from its earlier iterations emphasising that earlier works can be misleading when used to justify current research practices phenomenography is a developing not static approach to social science research and this book

introduces further methodological and theoretical extensions to the research although most commonly used in educational research the potential of phenomenography to contribute to research in other social science disciplines is increasingly being recognised and is further emphasised in this book in this way this book is not only essential reading for doctoral students but will also be of interest to those already experienced in phenomenography and to social science researchers within and outside the field of education

this book explores the way in which the study and practice of love creates a common ground for different faiths and different traditions within the same faith for the contributors common ground in this context is not a minimal core of belief or a lowest common denominator of faith but a space or area in which to live together consider together the meaning of the love to which various faiths witness and work together to enable human flourishing such a space the contributors believe is possible because it is the place of encounter with the divine this book is the fruit of a project for the study of love in religion which aims to create this space in which different traditions of love converge from islam judaism and the christianity of both east and west tools employed by the contributors in exploring this space of love include exegesis of ancient texts theology accounts of mystical experience philosophy and evolutionary science of the human insights about human and divine love that emerge include its nature as a form of knowing its sacrificial and erotic dimensions its inclination towards beauty its making of community and its importance for a just political and economic life

there has been much discussion of two dimensions of the kingdom of god in scholarship the temporal already not yet and the embodied spirit flesh russell proposes that there is a third parallel dimension a social dimension using victor turner s concepts of structure antistructure and liminality russell explores how these concepts are consistently expressed in jesus teaching in paul s writing and through the writers of the second and third centuries she demonstrates how from the very beginning of the jesus movement christ followers were unique not because their members were to live liminal lives apart from structure but because they lived out new antistructural relationships within existing structures and thus transformed them they lived liminally within their structure

this volume presents international perspectives on the application and development of theory and methodology in researching higher education topics discussed include critical race theory the use of communities of practice theory participant ethnography and decolonization using indigenous principles

this book looks at the organization as the source of new capital development contents include the possibilities economics managing marketplace capital development managing organizational capital development managing human capital development managing information capital development managing mechanical capital development the possibilities management this title is from the groundbreaking series by dr robert carkhuff and dr bernard berenson

interrelationships of the platyhelminthes elucidates the role of the flatworms in the animal kingdom it brings together results from an international group of experts spanning many disciplines who give evidence for the phylogeny of flatworms and constituent major taxa a combined approach using traditional comparative techniques along with the modern techniques of molecular phylogeny is utilized to show that the monophyly of the phylum is not fully established and that the phylum may in fact consist of two groups the acoels and their relatives which are basal metazoans and the rhabditophora which is a more derived group
