this unique book provides a comprehensive overview of all aspects of life in north korea today drawing on decades of insider knowledge and experience noted experts ralph hassig and kongdan oh explore a world few outsiders can imagine in vivid detail the authors describe how the secretive and authoritarian government of kim jong il shapes every aspect of its citizens lives how the command socialist economy has utterly failed and how ordinary individuals struggle to survive through small scale capitalism north koreans remain hungry and oppressed yet the outside world is slowly filtering in and the book concludes by urging the united states to flood north korea with information so that its people can make decisions based on truth rather than their dictator s ubiquitous propaganda

in the real north korea lankov substitutes cold clear analysis for the overheated rhetoric surrounding this opaque police state based on vast expertise this book reveals how average north koreans live how their leaders rule and how both survive

why does north korea want to possess nuclear capabilities in order to find the answer to this question we must have an accurate understanding of the history and structure of the north korean regime so far we have only formed conjectures and predictions regarding north korea based on our own perspectives we now need to deal with and consider north korea as is to reach viable solutions to the issues north korea presents this volume contains analyses of the most salient critical issues pertinent to understanding the north korean regime penned by representative korean scholars of north korea as such the book examines the historical formation of north korea the identities of those power elite and the relative stability or instability as the case may be of the new regime under kim jong un also an important aspect to consider is the possibility of socio economic change in north korea though north korea has remained relatively static vis ā vis its political and military systems it is in the process of becoming rapidly marketized having continued various attempts to modify its economic policy in the social realm said economic shift has elicited the polarization of the disparate classes and the expansion of individualism such social transformations obscured by the easily visible political reality of north korea can provide solid grounds for determining the future of the north korea regime moreover it is imperative that we accurately understand the motivation behind

North Korea's intention to develop nuclear weapons namely the expansion of deterrence we must recognize the reasons for the North Korean hostility toward the United States from the very beginning of the DPRK formation and the North Korean fixation on nuclear weapons development further we need to understand the nature of relations between China and North Korea relations on which the international community has focused since North Korea began its nuclear testing as well as the history and structure of relations between North and South Korea only when we accurately understand North Korea can we reach solutions to the North Korean nuclear issue the studies in this volume by Korean scholars will reveal the veiled background of the visible phenomena and thereby help the readers to correctly understand the North Korean behaviors hitherto misunderstood or even those that were impossible to understand

The Institute for Unification Education which constitutes the Ministry of Unification of the Republic of Korea has published annual editions of Understanding North Korea since 1972 as an endeavor to promote greater understanding of North Korea for South Korean readers Understanding North Korea depicts the reality faced by the Northern regime in areas of politics diplomacy military economy society culture and many more the May 2012 publication has been translated into English with the aim to help the international community better understand the Northern half of the Korean Peninsula English translations of the referred editions will be published on a biennial basis we hope that this book enables readers around the world to better grasp the reality of North Korea the regime in North Korea exhibits three characteristics it is a totalitarian dictatorship governed by the sole leadership of the *Suryong* who stands above the Workers' Party of Korea (WPK) and the state the regime as one of the world's most highly centralized and planned economies has advocated self-reliance and the monopoly of all means of production by the state and cooperative organizations and the state uses the concept of grand socialist family which requires absolute obedience of people to the *Suryong* who is considered the father of a family these traits engendered a peculiar form of social structure unprecedented in any other socialist country as it had to do under Kim Jong-il North Korea under Kim Jong-un must engage in some degree of reform and opening to improve its economy and ensure the regime's survival such a path however also brings with it the risk of regime collapse the regime thus faces the difficult task of maintaining stability while at the same time reforming and opening up
