the original title for this work was mathematical literacy what is it and why you need it the current title reflects that there can be no real learning in any subject unless questions of who what when where why and how are raised in the minds of the learners the book is not a mathematical text and there are no assigned exercises or exams it is written for reasonably intelligent and curious individuals both those who value mathematics aware of its many important applications and others who have been inappropriately exposed to mathematics leading to indifference to the subject fear and even loathing these feelings are all consequences of meaningless presentations drill rote learning and being lost as the purpose of what is being studied mathematics education needs a radical

reform there is more than one way to accomplish this here the author presents his approach of wrapping mathematical ideas in a story to learn one first must develop an interest in a problem and the curiosity to find how masters of mathematics have solved them what is necessary to be mathematically literate it's not about solving algebraic equations or even making a geometric proof these are valuable skills but not evidence of literacy we often seek answers but learning to ask pertinent questions is the road to mathematical literacy here is the good news new mathematical ideas have a way of finding applications this is known as the unreasonable effectiveness of mathematics

this book is the complete guide to understanding the structure of homeland security its underlying law and policy created from a broad and in depth yet edited collection of statutes policy papers presidential directives and other documents it cultivates a detailed understanding of the foundations of homeland security it is arranged in a topic by topic format structured to include only the documents and statutes that affect a particular subject making for much easier understanding thus the chapter on fema contains only the portions of the statutes and other documents that relate to fema there are twenty five topic areas it contains hundreds of end notes references and suggestions for further study this book offers important legal guidance that students law enforcement officers lawyers and other homeland security professionals need to accurately interpret understand and apply homeland security policy the introduction provides an in depth overview of the subject of homeland security and includes a discussion of what is homeland security definitions of homeland security and terrorism what is homeland security law its development and what is a homeland security curriculum there are contributing chapters about homeland security in europe and homeland security in china and japan

deeply researched and widely reported this exploration of the black power phenomenon that began to challenge the traditional civil rights movement in 1966 offers portraits of the major characters in the yearlong drama and the fierce battles over voting rights identity politics and the teaching of black history

reviled as a fascist and zealot by libertarians and liberals but praised as a great patriot and devout man of god by many conservatives john ashcroft may have been the most powerful and polarizing attorney general in our nation's history looking past such oversimplified stereotypes nancy baker offers the first in depth study of ashcroft's controversial tenure as attorney general and as domestic commander in our campaign against global terrorism addressing new concerns about challenges to civil liberties in the wake of 9 11 baker provides a critical assessment of ashcroft's impact on national life within the context of an enormous expansion of presidential power baker depicts a man who even before 9 11 was in search of a mission and then found it in the war on terror she

explores how ashcroft's counterterrorism actions eroded checks on executive power arguing that the attorney general used both the formal and informal powers of his office to expand executive and law enforcement authority and did so at the additional expense of criminal procedural rights privacy rights and government transparency baker tells how the war against terrorism the unique legal policy role of the attorney general and ashcroft's presence in that office dramatically expanded the power and impact of executive power in domestic affairs she identifies ashcroft's rhetorical tactics that set his actions at odds with the public interest such as browbeating critics and marginalizing dissent and challenges the success claimed by ashcroft and his supporters in safeguarding america by documenting the justice department's lack of effectiveness in key prosecutions she also includes an enlightening analysis of the patriot act and its implications for both civil liberties and government power by documenting the ongoing importance of ashcroft's legacy a legacy now continued by alberto gonzalez baker shows how he dramatically changed the office and disrupted our constitutional system of divided and checked powers her close scrutiny of ashcroft's actions vividly highlights the role that an attorney general can play in shaping presidential power during national crises and provides a cautionary tale for anyone eager to protect our civil liberties

1 new york times bestseller a dramatic expansion of a groundbreaking work of journalism the 1619 project a new american origin story offers a profoundly revealing vision of the american past and present one of the best books of the year the washington post npr esquire marie claire electric lit ms magazine kirkus reviews booklist in late august 1619 a ship arrived in the british colony of virginia bearing a cargo of twenty to thirty enslaved people from africa their arrival led to the barbaric and unprecedented system of american chattel slavery that would last for the next 250 years this is sometimes referred to as the country's original sin but it is more than that it is the source of so much that still defines the united states the new york times magazine's award winning 1619 project issue reframed our understanding of american history by placing slavery and its continuing legacy at the center of our national narrative this new book substantially expands on that work weaving together eighteen essays that explore the legacy of slavery in present day america with thirty six poems and works of fiction that illuminate key moments of oppression struggle and resistance the essays show how the inheritance of 1619 reaches into every part of contemporary american society from politics music diet traffic and citizenship to capitalism religion and our democracy itself this is a book that speaks directly to our current moment contextualizing the systems of race and caste within which we operate today it reveals long glossed over truths around our nation's founding and construction and the way that the legacy of slavery did not end with emancipation but continues to shape contemporary american life featuring contributions from leslie alexander michelle alexander carol anderson joshua bennett reginald dwayne betts jamelle bouie anthea butler matthew desmond rita dove camille dungy cornelius eady eve l ewing nikky finney vievee francis yaa gyasi forrest hamer terrance hayes kimberly annece henderson jeneen

americans hate bureaucracy though they love the services it provides and demand that government run like a business hence today s privatization revolution jon michael shows how the fusion of politics and profits commercializes government and consolidates state power in ways the constitution s framers endeavored to disaggregate

every society has its ideals and its myths in naked america author michael a smith examines many of the nation s original ideals and presents compelling information indicating most of them have been transformed into myths for example many regularly describe the united states as the land of economic opportunity yet 20 percent of american households earn half of all income and own more than half of all the nation s assets education is touted as the road to success although only one third of high school graduates achieve a postsecondary education degree two thirds of future jobs in what has become essentially a service economy are projected to be low or very low paying in the world s self proclaimed greatest democracy pessimism about government is widespread and only 35 percent of registered voters vote regularly although more than 80 percent of americans profess to be practicing christians new testament ethics appear overwhelmed by mindless materialism pervasive marketplace fraud a high crime rate constant ideological bickering and cultural kitsch to rectify this situation and turn america s ideals into reality the author proposes many wide ranging social economic and political reforms

this book presents a sustained theoretical analysis of what rights children should possess in connection with state decision making about their personal relationships which the state does in numerous aspects of family law including paternity adoption custody and visitation termination of parental rights and grandparent visitation it examines the nature and normative foundation of adults rights in connection with relationships among themselves and then assesses the extent to which the moral principles underlying adults rights apply also to children it concludes that the law should ascribe to children rights equivalent though not identical to those which adults enjoy and this would require substantial changes in the way the legal system treats children including a reformation of the rules for establishing legal parent child relationships at birth and of the rules for deciding whether to end a parent child relationship

this publication is the result of theoretical reflections and empirical studies carried out by the united nations international research and training institute for the advancement of women un instraw it explores what other issues beyond remittances alone constitute strategic topics for deeper analysis the broader aim is to create from a gender perspective a positive synergy between migration and development this publication is evidence of the need to consider and debate new paradigms in order to identify public policies and programmes which make gender equality central to development and which recognize women as leaders in different spheres of action

europa financial systems in the global economy provides an overview of sources of finance types of financial intermediation and financial systems in europe and their relative importance in the world economy it describes market mechanisms and prices and gives a broad introduction to the relevant regional financial and monetary issues including those countries that will join the eu in the future and makes an ideal primer for those new to the world of finance

unless federal health spending can be brought under control americans will face substantially higher taxes sharp reductions in other government programs and cuts in benefits to the elderly families businesses and communities will be forced to make agonizing choices between health care and other needs focusing on policies that do not shift costs to the states or the private sector the authors of restoring fiscal sanity 2007 suggest reforms in federal programs that have the potential to reduce the growth of spending for the entire health system increase the efficiency and effectiveness of the care provided and enhance health outcomes

based on over 60 interviews case studies of a full range of groups and analysis of extensive documentary evidence this title studies the anti war movement since the mammoth demonstrations of february 15th 2003 that dwarfed any previous protests in british history
