this book brings together experts in the fields of art history visual arts music cultural geography curatorial practice and landscape architecture to explore the role of material memory in the post industrial landscape and the ways in which that landscape can act as a site for many forms of creative practice it examines the role of material memory in

the siting of public artworks and politically inspired installation art within the socio economic post industrial landscape the post industrial ruin as a place for innovation in the curatorial process is also investigated as are social memory and the complexities of inscribing memory into places a number of chapters focus on photography and its important role in recording memory as transformation abandonment and erosion artists and musicians present personal case studies examining the siting of permanent and temporary artworks which can invoke memory of both culture and place the land itself and its associated histories of post industry are explored in artistic terms investigating dislocation wasted spaces and extinction landscape architects and cultural geographers explore the aesthetic of the urban ruin its natural and human ecologies and the re wilding of urban spaces the volume provokes discussion by a group of diverse experts on a very contemporary subject

the first book to provide a critical survey of the many different uses made of the term post modern across a number of different disciplines

this springerbriefs presents a case study and theoretical analysis of an artistic enclave that emerged within lawrenceville pittsburgh it briefly describes the history of greater pittsburgh and lawrenceville s transition from thriving blue collar community to depopulated low income neighborhood to gentrifying site of artistic and creative culture it draws on multiple methods e g interviews observations and survey data to discuss the advantages and disadvantages associated with being a pittsburgh artist and offer a detailed description of the origins and ongoing development of lawrenceville s artistic enclave it discusses this enclave in the context of sociological historical and interdisciplinary work on urban artistic communities i e bohemian and quasi bohemian communities and situates it within the larger urban artistic tradition and within its contemporary urban context it maintains that this enclave constitutes a successful i e sustainable example of an artistic creative class enclave a heuristic concept that clarifies and amends richard florida s brief commentary on contemporary urban artistic life it concludes by offering policy suggestions for those who wish to promote such enclaves and a preliminary critical appraisal of their potential impact on society

the move from an industrial to a post industrial society has been documented by many as has the impact of this new order on the macro level institutions of society government the workplace and the economy but what does post

industrial life mean to the individual and for relationships between people have and powers examine that question linking global changes in the work patterns information flow and knowledge to the practice of everyday life their answer is that the complexification of society requires a different kind of person creativity flexibility and emotional astuteness will become the watchwords of the future personality traits that will enable people to successfully adapt to the ever changing swirl of wo

post industrial socialism provides critical analysis of recent developments in leftist political thought adrian little charts new directions in the economy and the effects they have had on traditional models of social welfare and orthodox approaches to social policy in demonstrating the limitations of the welfare state and the associated concept of citizenship this book suggests that we need to renew socialist welfare theory through the evaluation of universal welfare provision and a policy of breaking the link between work and income

this book is about the state of the german model of capitalism today it is the first book to offer an integrated analysis of the political economy of unified germany rather than dealing with east and west as separate entities it challenges the standard view that germany is lagging behind other capitalist states in the transition to a postindustrial economy and looks in detail at the expansion of the service sector the transformation of the industrial sector and the development of the knowledge economy in unified germany the book finds that germany is indeed becoming postindustrial but that it is not developing in any single direction rather the research outlined in this book suggests that some regions perform well in services or the production of knowledge while others have successfully transformed industrial production this variation it is argued is the consequence of unification as well as older economic traditions which pre date the industrial revolution

in 1976 daniel bell s historical work predicted a vastly different society developing one that will rely on the economics of information rather than the economics of goods bell argued that the new society would not displace the older one but rather overlie some of the previous layers just as the industrial society did not completely eradicate the agrarian sectors of our society the post industrial society s dimensions would include the spread of a knowledge class the change from goods to services and the role of women all of these would be dependent on the expansion of services in the economic sector and an increasing dependence on science as the means of innovating and organizing

technological change bell prophetically stated in the coming of the post industrial society that we should expect new premises and new powers new constraints and new questions with the difference that these are now on a scale that had never been previously imagined in world history

study on the economic importance of information in the postindustrial society discusses historical and current trends in economic conditions and economic structure incl interindustry shift technological change inflation unemployment transnationalisation of telecommunications and the importance of service sector public sector etc outlines economic policy educational policy and research policy options with partic reference to the uk bibliography and graphs

a study of the post economic state the book examines the social dynamics and formation of the modern post economic society regarding the transition from labour to creative activity as the main issue of modern social transformation

the active society published in 1968 is the most ambitious book in amitai etzioni s remarkable career in this new collection of essays wilson carey mcwilliams brings together scholars in a range of disciplines to analyze the significance and shortcomings of this important work

tracing the story of red lodge from the 1880s to the present christensen tells how a mining town managed to endure the vagaries of the west s unpredictable extractive industries economy she connects red lodge to a myriad of larger events and historical forces to show how national and regional influences have contributed to the development of local identities exploring how and why westerners first rejected and then embraced western images and how ethnicity wilderness and historic preservation became part of the identity that defined one town book jacket
