this classic study shows how humans express thought through graphic means and why certain shapes and configurations of dot and line are perceived and remembered more easily than others

how did a symbol such as the cross which today is so commonly associated with christianity come to appear in the pre columbian art of central america why does the crow stand for death evil and bad luck in europe but signify a creative and civilizing force in native american culture every traditional symbol bears an elemental power that transcends boundaries and holds significance for many cultures but the ways in which we interpret such power have varied tremendously around the world and through the ages in symbols and their meanings author and art historian jack tresidder explores core symbols from across global cultures through themes common to the world s spiritual imagination thought provoking and visually stunning symbols and their meanings offers a uniquely accessible compendium of symbols and symbol systems and shows how the profound messages conveyed by symbols have enriched the world s cultural and spiritual heritage front cover flap

the unvarying essential meanings of around 1 000 symbols and symbolic themes commonly found in the art literature and thought of all cultures through the ages are clarified

increasingly debates about religious symbols in the public space are reformulated as human rights questions and put before national and international judges particularly in the area of education legitimate interests are manifold and often collide children s educational and religious rights parental liberties vis à vis their children religious traditions state

obligations in the area of public school education the state neutrality principle and the professional rights and duties of teachers are all principles that may warrant priority attention each from their own discipline and perspective ranging from legal human rights scholars legal philosophers political scientists comparative law scholars and country specific legal experts these experts contribute to the question of whether in the present day pluralist state there is room for state symbolism e g crucifixes in classroom or personal religious signs e g cross necklaces or kirpans or attire e g kippahs or headscarves in the public school classroom

science has its own language the arts have another religion uses especially the language of the arts for it uses signs and symbols like bridges from the visible to the invisible from the depths to the heights from the earthly world to the heavenly one from humanity to god the symbol is not an object of worship but invites to worship it leads to the encounter with the divine its language takes an object or an action and from it evokes something other which is often inexpressible by virtue of some correspondence natural association or convention from publisher description

this interdisciplinary conversation discusses the nature of language

reprint of the original first published in 1874 the publishing house anatiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public so that they do not get lost

guided by the romantic compass of turner byron and ruskin victorian travellers to the dolomites sketched in the mountainous backdrop of venice a cultural petit tour of global significance as they zigzagged across a debatable land between italy and austria victorians discovered a unique geography characterized by untrodden peaks and unfrequented valleys the discovery of this landscape blended aesthetic scientific and cultural values utterly different from those engendered by the bombastic conquests of the western alps achieved during the golden age of mountaineering filtered through memories of the venetian grand tour the victorian encounter with the dolomites is revealed through a series of distinct cultural practices that paradigmatically define a silver age of mountaineering this book shows how these practices are more ethnographic than imperialistic more feminine than masculine more artistic than sportive rather than racing to summits the silver age is about rambling rather than conquering peaks it is about sketching them in an intimate interaction with the dolomite landscape

this credible highly readable and vividly illustrated encyclopedic volume traces the origins and evolution of hundreds of symbols and symbol systems that have impacted human culture history art and psychology since the dawn of time from the i ching and the chakras to the tarot and the zodiac from mythical beasts and magical numbers to heraldic shields and geometric shapes author and psychologist david fontana identifies symbols from around the world and draws upon his experience with dream workshops and meditation to help readers deepen their understanding and appreciation of these intriguing icons relevant compelling and visually appealing the secret language of symbols is a unique and practical reference tool as well as an inspiring guide to the images that give meaning to our everyday lives
