vehicles and techniques used in pulling competitions

did you know that tractor pulling vehicles can have as many as six engines in one tractor these engines come from vehicles such as jets speedboats and tanks the tractors need as much power as they can get to drag huge amounts of weight down the track in fact tractor pulling is considered the world s most powerful motor sport enter the dirt and destruction sports zone to learn about the history mechanics technology and the famous drivers connected to tractor pulling competitions you ll learn who decided one engine just wasn t enough for his tractor how a blind tractor puller can compete and win which rules have made tractor pulling safer how you can try tractor pulling are you into sports then get in the zone

describes the history equipment safety rules contests and other aspects of truck and tractor pulling competition

traces the history of truck and tractor pulling from its beginning in the midwest in the late 1800s and includes coverage of famous drivers and exciting events

god must love the common man he made so many of them abraham lincoln they have been called the silent majoritythose who toiled from dawn til dusk in americas factories shops farms and offices they have been termed middle class and middle america many of them inhabit the midwest they produce the limitless grain spreadsheets documents and widgets that make the united states the greatest society the world has ever known if ever a generation shared a common experience it was the baby boom generation television markets had three stations which were controlled by three major networks radio stations were dominated by top 40 hits providing the common soundtrack of the generations

experiences school consisted of reading writing and arithmetic team sports were practiced after school chores were done at home and church was mandatory all this to produce tomorrow's generators of widgets grainfields spreadsheets and documents but common experiences and rote preparation for one's place or cog in society's machine does not necessarily translate into common thoughts this is a peek into the last bastion of middle America the Midwest two boys who grew up there in the heyday of the baby boom generation wrote about some of their common experiences and uncommon thoughts this anthology is the timeline of their lives but it might resemble yours as well accept the challenge to find out

with very few people engaged in agriculture today it is no surprise that most Americans have little understanding of the challenges that modern farmers face this book provides readers a glimpse into life on a modern Missouri farm where a variety of grains grass seed corn and cattle are produced all of the conversations events and descriptions are drawn from the author's experience working alongside and observing this father and son family farm operation during the course of a year farming today is technologically complex and requires a broad set of skills that range from soil conservation animal husbandry and mechanics to knowledge of financial markets and computer technology the focus on skills in addition to the size of the financial risks and the number of unexpected challenges along the way provides readers with a new perspective and appreciation for modern farm life

men grow old but they don't always grow up in fact often the only difference between men and boys is the size of their toys all over the country in sheds hangers and harbours a silent army of dedicated other halves has been tinkering away restoring war horses and work horses pleasure craft and mean machines to their gleaming and gargantuan former glory at last in big boys toys these blokes step out

into the daylight to be counted to stand up for what's big and noisy and leaking oil everywhere
centurion tanks tug boats paddle steamers super tractors top fuellers flying tricycles you name it they
re fixing it or painting it tuning it or replacing the brake pads once again packed with photos and vital
statistics big boys toys lifts the dust sheet and scrapes back the paint to uncover the whos the hows and
most mysteriously the whys of oversized boys and their magnificent toys

one of people magazine's most anticipated books a powerful thought provoking saga woman's world
an evocative story of love and sacrifice people from the acclaimed author of the kindest lie a
heartrending novel about a mother and daughter each seeking justice and following their dreams in
1960s nashville and 1990s chicago two women two pivotal moments one dream for justice and
equality in the fall of 1959 freda gilroy arrives on the campus of fisk university full of hope carrying a
suitcase and the voice of her father telling her she's part of a family legacy of black excellence soon
the ugliness of the jim crow south intrudes and freda reluctant to get involved is torn between a soon
to be doctor and an audacious young activist freda must decide how much she's willing to risk in the
name of justice in 1992 chicago freda's daughter tulip is an ambitious pr professional on track for an
exciting career if workplace politics and racial microaggressions don't get in her way but with the
ruling in the rodney king trial weighing heavily on her tulip feels called to action and must choose just
like her mother had three decades prior what her role will be in the story of america's quest for
equality insightful evocative and richly imagined with historical details people of means is an
emotional tour de force about the lasting legacy of family bonds and the far reaching ways the past
shapes our present people of means left me breathless a beautifully crafted story profound and sharp
sadeqa johnson new york times bestselling author of the house of eve

looks at the civil engineering and mechanical engineering aspects of the heavy vehicle infrastructure system the state of the art in research and implementation on issues such as highway geometry traffic management enforcement technologies and safety are reviewed

a tridem is defined as a group of three axles that are equally spaced and equally share the load this report describes a project to monitor the operational performance and maintenance requirements of a new tridem tractor designed with stability enhancing features and used for transportation of logs in the slave lake region of alberta tests of the tractor included both normal operation in a single articulated combination with a pole trailer over forest roads in both wet and dry conditions as well as a series of controlled steering response and traction tests to compare the performance of two and three drive axle log haul tractors in combination with a tandem axle pole trailer under three different load conditions additional tests compared the tractive ability of a tridem drive axle tractor with a conventional tandem drive unit recommendations are made regarding the suitability of tridem drive tractors for log hauling applications in alberta for combinations similar to those evaluated during this project
