learning and memory a comprehensive reference second edition four volume set is the authoritative resource for scientists and students interested in all facets of learning and memory this updated edition includes chapters that reflect the state of the art of research in this area coverage of sleep and memory has been significantly expanded while neuromodulators in memory processing neurogenesis and epigenetics are also covered in greater detail new chapters have been included to reflect the massive increase in research into working memory and the educational relevance of memory research no other reference work covers so wide a territory and in so much depth provides the most comprehensive and authoritative resource available on the study of learning and memory and its mechanisms incorporates the expertise of over 150 outstanding investigators in the field providing a one stop resource of reputable information from world leading scholars with easy cross referencing of related articles to promote understanding and further research includes further reading for each chapter that helps readers continue their research includes a glossary of key terms that is helpful for users who are unfamiliar with neuroscience terminology

chan's book explores the challenges in assessing experiential learning deepens our understanding and inspires readers to think critically about the purpose of assessment in experiential learning experiential learning has been studied and proven to be effective for student learning particularly for the development of holistic competencies i.e. 21st century skills soft skills transferable skills considered essential for individuals to succeed in the increasingly global and technology infused 21st century society universities around the world are now actively organising experiential learning activities or programmes for

students to gain enriching and diversified learning experiences however the assessment of these programmes tends to be limited unclear and contested assessment plays a central role in education policies and students approach to learning but do educators know how to assess less traditional learning such as service learning entrepreneurship cross discipline or cross cultural projects internships and student exchanges while the current assessment landscape is replete with assessments that measure knowledge of core content areas such as mathematics law languages science and social studies there is a lack of assessments and research that focus on holistic competencies how do we assess students ability to think critically problem solve adapt self manage and collaborate central to the discussion in this book is the reason students are assessed and how they should be assessed to bring out their best learning outcomes offering a collection of best assessment practice employed by teachers around the world this volume brings together both theoretical and empirical research that underpins assessment and perceptions of different stakeholders understanding of assessment in experiential learning from students teachers and policymakers the idea of assessment literacy also plays an important role in experiential learning for example reflection is often used in assessing students in experiential learning but how reflection literate are educators are they aware of the ethical dilemmas that arise in assessing students these questions are discussed in detail the volume also introduces a quality assurance programme to recognise student development within experiential learning programmes the book will be particularly informative to academic developers teachers students and community partners who struggle with the development and assessment for experiential learning those who plan to apply for funding in experiential learning and policymakers and senior managements seeking evidence and advice on fine tuning curricular assessment designs and quality assurance the open access version of this book available at taylorfrancis.com has been made available under a creative commons attribution non commercial no derivatives 4.0 license
