now this updated and expanded two volume edition of fischer and corcoran s standard reference enables professionals to gather this vital information easily and effectively in measures for clinical practice volume 1 couples families and children and volume 2 adults joel fischer and kevin corcoran provide an extensive collection of over 320 rapid assessment instruments rais including questionnaires and scales which assess virtually any problem commonly encountered in clinical practice all instruments are actually reprinted in the book and are critiqued by the authors to aid in their selection the instruments included are brief and easy to administer and will be useful for all types of practice and all theoretical orientations

generalist social work practice provides students with the foundational skills and knowledge needed to serve clients across micro mezzo and macro areas of practice author janice gasker brings a focus on self reflection as the first stage in the planned change process and writes with the perspective that we consider work at all levels of practice simultaneously rather than in isolation in accordance with the 2015 educational policy and accreditation standards epas set forth by the council of social work education cswe the planned change process is presented as dynamic and interactive providing students with a clear understanding of how each stage of the planned change process can be utilized at any point when serving a client system the text spotlights the distinctive characteristics of the worker their values attitudes and experiences that may influence client interaction the text also includes case studies collaborative learning exercises and critical thinking questions to help students apply concepts to practice

behavior modification has lacked operational procedures to sharpen techniques and equipment these aspects have lagged behind the development of general principles and specialized modification techniques this sophisticated sourcebook is devoted exclusively to the technical details of how to do it in behavioral assessment and practice an aspect of behavior modification that is relatively undeveloped despite its significance and that has only recently received the attention it deserves the selections contained in this volume have been drawn from a variety of technical areas and are organized into six main parts the first part emphasizes the importance of technology and procedure in the history of the field and in the second part attention is given to guidelines for practice with individuals and families that may be employed with a wide variety of problems and patrons in many service settings the next part on interviewing guidelines and style includes an interview guide for behavioral counseling and a general discussion of types of bias and therapist influence in behavioral assessment part four is concerned with observation recording and monitoring and part five on schedules and checklists includes a variety of schedules and rating forms including a therapist schedule for rating family verbal behavior the last part on instrumentation in behavior therapy contains a chapter that is a major comprehensive description and review of electromechanical

devices applicable to behavior modification because the book covers procedural details it serves not only as a sourcebook but as a volume every practicing behavior modifier as well as researchers in behavior therapy and modification will find useful social workers teachers clinical psychologists psychiatrists pastoral counselors and their students will appreciate this manual covering technical information required for effective practice

this volume covers assessment for instruments for use with adults

one of the key challenges of all types of practice and research is finding a way to measure the problem this seminal 2 volume book contains hundreds of the most useful measurement tools for use in clinical practice and in research all measures are critiqued by the editors who provide guidance on how to select and score them and the actual measures are wholly reproduced this second volume focusing on measures for use with adults whose conditions of concerns are not focused on family relationships or couple relationships includes an introduction to the basic principles of measurement an overview of different types of measures and an overview of the rapid assessment inventories included herein volume ii also contains descriptions and reviews of each instrument as well as information on how they were selected and how to administer and score them this book is designed as the definitive reference volume on assessment measures for both practice and research in clinical mental health this fifth edition of corcoran and fischers measures for clinical practice and research is updated with a new preface new scales and updated information for existing instruments expanding and cementing its utility for members of all the helping professions including psychology social work psychiatry counseling nursing and medicine alone or as a set these classic compendiums are powerful tools that clinicians and researchers alike will find an invaluable addition to or update of their libraries

an international quarterly devoted to the physiological psychological psychiatric sociological and educational aspects of the second decade of human life

addresses issues of sex and gender at the personal and the social level examines issues of identity status class ethnicity race and nation of sexuality and the body of social institutions and the structures of representation topics include changing conceptions of the feminine the family and masculinity religion morality cultural images medical practice public health economy and society and many more

the handbook for critical reading is designed to teach students how to understand a piece of writing and to think about it analytically although it gives examples and models of each reading skill it allows students to use their own reading materials textbooks newspapers anthologies and novels to practice their reading skills the student or teacher can determine the reading practice that is most relevant to each student and use that to practice reading skills this unique book has some of the best available coverage of inference figurative language fact opinion author bias and argument analysis
