this is an open access book as a leading role in the global megatrend of scientific innovation china has been creating a more and more open environment for scientific innovation increasing the depth and breadth of academic cooperation and building a community of innovation that benefits all such endeavors are making new contributions to the globalization and creating a community of shared future to adapt to this changing world and china s fast development in the new era 2025 4th international conference on educational innovation and multimedia technology eimt 2025 to be held in march 14 16 2025 this conference takes bringing together global wisdom in scientific innovation to promote high quality development as the theme and focuses on cutting edge research fields including educational innovation and multimedia technology eimt 2024 encourages the exchange of information at the forefront of research in different fields connects the most advanced academic resources in china and the world transforms research results into industrial solutions and brings together talent

technology and capital to drive development the conference sincerely invites experts scholars business people and other relevant personnel from universities scientific research institutions at home and abroad to attend and exchange

this book is open access focusing on education and information management with modernization icmeim 2024 provides a platform for scholars in related fields to exchange and share information discuss how the two affect each other and promote the modernization of education by studying certain educational issues that exist open up new perspectives broaden horizons and examine the issues under discussion by participants create a forum for sharing research and exchange at an international level where participants will be informed of the latest research directions results and content in different fields thus inspiring them to come up with new research ideas the organizing committee of conference is delighted to invite you to participate in this exciting event which also paves way for young researchers in acquiring knowledge and information by meeting the experts

this volume represents the proceedings of the 7th international conference on knowledge innovation and invention 2024 ickii 2024 this conference is organized by ieee tainan section sensors council national formosa university of taiwan and international institute of knowledge innovation and invention iikii and held on august 16 18 2024 in nagoya aichi japan the conference provided a unified communication platform for researchers in a range of topics such as information technology communication science engineering computer science electrical electronic engineering automation engineering big data computation machine learning and other engineering related fields this proceedings volume enables interdisciplinary collaboration of science and engineering technologists in the academic and industrial fields as well as networking internationally this book is open access which means that you have free and unlimited access

from the beginning of software time people have wondered why it isn't possible to accelerate software projects by simply adding staff this is sometimes known as the nine women can't make a baby in one month problem the most famous treatise declaring this to be impossible is fred brooks 1975 book the mythical man month in which he declares that adding more programmers to a late software project makes it later and indeed this has proven largely true over the decades aided by a domain driven code generator that quickly creates database and api code parallel agile pa achieves significant schedule compression using parallelism as many developers as necessary can independently and concurrently develop the scenarios from initial prototype through production code projects can scale by elastic staffing rather than by stretching schedules for larger development efforts schedule compression with a large team of developers working in parallel is analogous to hardware acceleration of compute problems using parallel cpus pa has some similarities with and differences from other agile approaches like most agile methods pa gets to code early and uses feedback from executable software to drive requirements and design pa uses technical prototyping as a risk mitigation strategy to help sanity check requirements for feasibility and to evaluate different technical architectures and technologies unlike many agile methods pa does not support design by refactoring and it doesn't drive designs from unit tests instead pa uses a minimalist uml based design approach agile iconix that starts out with a domain model to facilitate communication across the development team and partitions the system along use case boundaries which enables parallel development parallel agile is fully

compatible with the incremental commitment spiral model icsm which involves concurrent effort of a systems engineering team a development team and a test team working alongside the developers the authors have been researching and refining the process for several years on multiple test projects that have involved over 200 developers the book's example project details the design of one of these test projects a crowdsourced traffic safety system

the 2010 pacific rim conference on multimedia pcm 2010 was held in shanghai at fudan university during september 21-24 2010 since its inauguration in 2000 pcm has been held in various places around the pacific rim namely sydney pcm 2000 beijing pcm 2001 hsinchu pcm 2002 singapore pcm 2003 tokyo pcm 2004 jeju pcm 2005 zhejiang pcm 2006 hong kong pcm 2007 tainan pcm 2008 and bangkok pcm 2009 pcm is a major annual international conference organized as a forum for the dissemination of state of the art technological advances and research results in the fields of theoretical experimental and applied multimedia analysis and processing pcm 2010 featured a comprehensive technical program which included 75 oral and 56 poster presentations selected from 261 submissions from australia canada china france germany hong kong india iran italy japan korea myanmar norway singapore taiwan thailand the uk and the usa three distinguished researchers prof zhi hua zhou from nanjing university dr yong rui from microsoft and dr tie yan liu from microsoft research asia delivered three keynote talks to the conference we are very grateful to the many people who helped to make this conference a success we would like to especially thank hong lu for local organization qi zhang for handling the publication of the proceedings and cheng jin for looking after the conference website and publicity we thank fei wu for organizing the special session on large scale multimedia search in the social network settings

offers guidance to elementary and middle school teachers in selecting and using videos in instruction and includes an annotated list of recommended video titles arranged by title and subject

rapid video development for trainers meets the needs of companies and individuals who are thinking about or have dabbled in video production although producing focused high quality video is well within the capability of nearly every development professional the skill sets required to do so have not traditionally fallen within most trainers job descriptions this is where rapid video development comes in a comprehensive tutorial covering every aspect of web based video development this book provides both the theoretical overview and the nuts and bolts instructions for creating professional quality video quickly easily and inexpensively written specifically for trainers by a 20 year media industry veteran who has worked in europe america and asia rapid video development explains in clear non technical language everything you need to know to create exceptionally instructive cost effective video yourself some of the topics discussed include the opportunities presented to trainers by the advent of inexpensive digital technology the principles psychology and philosophies behind effective video what constitutes an appropriate situation in which to utilize video as a training medium the various distinct layers visual spoken word music and sound effects and more that comprise an effective high quality video techniques for using effects to enhance rather than detract from the impact of your video designing and implementing an efficient productive workflow thorough coverage of the tools you'll need with a heavy emphasis on the most cost effective software and hardware for your project detailed input on how to shoot great video with
