as a historical inquiry and synthesis this intellectual history is the first study to apply the ideal type or model building methodology of otto hintze 1861 1940 to western historical thought or to what r g collingwood called the idea of history for it contains succinct and useful models for seeing and teaching classical christian and modern professional historiography religion and the rise of history is also the first work to suggest that in addition to his well known paradoxical simul and or at the same time way of thinking and viewing life martin luther also held to a way that was deeply incarnational dynamic and or in with and under this dual vision and a lutheran ethos strongly influenced leibniz hamann and herder and was therefore a matter of considerable significance for the rise of a distinctly modern form of historical consciousness commonly called historicism in protestant germany smith s essay suggests a new time period for the formative age of modern german thought culture and education the cultural revolution in germany this age began in the early 1760s and culminated in 1810 with the founding of the university of berlin the first fully modern and modernizing university this university first became the recognized center for the study of history however through the work of leopold von ranke 1795 1886 here the story shows how a young ranke derived his individualizing way of thinking and viewing life mainly from luther how his life work is the best example in western literature of the rise of history from a calling to a profession and how the three way discussion between troeltsch meinecke and hintze concerning the nature of modern historical thought was of central importance for the reorientation of western social historical thought in the twentieth century

the christian century and the rise of the protestant mainline offers the first full length critical study of the christian century widely regarded as the most influential religious magazine in america for most of the twentieth century and hailed by time as protestantism s most vigorous voice elesha coffman narrates the previously untold story of the magazine exploring its chronic financial struggles evolving editorial positions and often fractious relations among writers editors and readers as well as the central role it played in the rise of mainline protestantism coffman situates this narrative within larger trends in american religion and society under the editorship of charles clayton morrison from 1908 1947 the magazine spoke out about many of the most pressing social and political issues of the time from child labor and women s suffrage to war racism and the internment of japanese americans during world war ii it published such luminaries as jane addams reinhold niebuhr and martin luther king jr and jostled with the nation

the new republic and commonweal as it sought to enlarge its readership and solidify its position as the voice of liberal protestantism but by the 1950s internal strife between liberals and neo orthodox and the rising challenge of billy graham s evangelicalism would shatter the illusion of protestant consensus the coalition of highly educated theologically and politically liberal protestants associated with the magazine made a strong case for their own status as shepherds of the american soul but failed to attract a popular following that matched their intellectual and cultural clout elegantly written and persuasively argued the christian century and the rise of the protestant mainline takes readers inside one of the most important religious magazines of the modern era
