in many respects the nineteenth century belonged to britain for much of the period between 1800 and 1914 britain was at the height of its power and influence one of the world s superpowers if not its greatest it was the golden victorian age one of prosperity and transformation britannia ruled the waves and through its achievements and influence it was a leader for political economic and cultural change its cities and population expanded rapidly industrialisation and the advent of the steam railway revolutionised trade and the economy the rise of the middle classes changed the social structure forever politics was dominated by debate on irish home rule britain escaped revolution by timely political reform and the delicate balance of power in europe was assiduously protected despite minor wars in outposts of the empire this century clearly saw seismic change but what did this mean to the nation just a few decades later most of what victorian britain held dear would be shattered by the aftermath of the looming great war tracing the political social and economic cultures of the period as well as what might have been william d rubinstein seeks to uncover how this fascinating century of change impacted the british people and their sense of identity

in this the second part of his history of the industrial revolution richard brown examines the political and religious developments which took place in britain between the 1780s and 1840s in terms of the aristocratic elite and through the expression of alternative radical ideologies opening with a discussion of the nature of history and of britain in 1700 it goes on to consider britain s foreign policy the emergence of the modern state and the mid century crisis of the 1840s unlike many previous works it emphasises british not just english history it is this diversity of experience and the focus on continuity as well as change women as well as men that makes this a distinctive text students will also find the theoretical foundations of historical narrative and analysis clearly explained

in the first full length treatment of nineteenth century urbanism from a geographical perspective richard dennia focuses on the industrial towns and cities of lancashire yorkshire the midlands and south wales that epitomised the spirit of the new age

paradoxically the victorian era which was laid on a bedrock of work and industry saw the greatest upsurge in leisure pursuits hitherto witnessed this book describes the pastimes enjoyed by the victorians placing them in their social context

this is the first historical study of a central human problem using different combinations of historical techniques and sources including coroners private case papers professor anderson examines in turn four major elements in the study of suicide suicide rates and distributions individual experiences social attitudes and efforts at prevention
