in mid nineteenth century Mexico garrisons town councils state legislatures and an array of political actors groups and communities began aggressively petitioning the government at both local and national levels to address their grievances often viewed as a revolt or a coup d'état these pronunciamientos were actually a complex form of insurrectionary action that relied first on the proclamation and circulation of a plan that listed the petitioners demands and then on endorsement by copycat pronunciamientos that forced the authorities be they national or regional to the negotiating table in independent Mexico Will Fowler provides a comprehensive overview of the pronunciamiento practice following the plan of Iguala this fourth and final installment in and culmination of a larger exploration of the pronunciamiento highlights the extent to which this model of political contestation evolved the result of more than three decades of pronunciamiento politics was the bloody civil war of the Reforma 1858-60 and the ensuing French intervention 1862-67 given the frequency and importance of the pronunciamiento this book is also a concise political history of independent Mexico

this is a study of one of the leading politicians of independent Mexico José María Tornel y Mendivil whose loyalty to Santa Anna and whose skills as a writer led him to play a crucial role in enabling the caudillo's repeated rise to power during this period this first biography of Tornel in English provides a new insight into the political thought of the Santanistas and the ways in which Santa Anna was able to return to power time and again in spite of the fact that he was deemed responsible for such major national disasters as the Texas campaign of 1836 and the 1847 defeat against the United States a close analysis of Tornel's own political evolution from advocating a radical federalist agenda in the 1820s to defending reactionary dictatorship in the 1850s illustrates the extent to which the Santanistas policies changed as the hopeful early 1820s degenerated into the despair of the late 1840s as the leading ideologue of the Santanistas a study of his politics paying close attention to the way they evolved in response to the different crises Mexico underwent highlights for the first time the extent to which Santa Anna and his followers upheld a particular political agenda which was essentially populist militaristic antipolitics and nationalistic and varied depending on the prevailing circumstances and the different historical contexts in which it surfaced a study of Tornel's activities as Santa Anna's main informer in the capital his leading propagandist and as a key player in the orchestration of revolts such as the 1834 plan of Cuernavaca serves to show the extent to which Santa Anna's success relied on Tornel's services coincidentally or not without Tornel Santa Anna was not able to return to power after his fall in 1855

the persistence of a raced based division of labor has been a compelling reality in all former slave societies in the Americas one can trace this to nineteenth century abolition movements across the Americas which did not lead to and were not intended to result in a transition from race based slave labor to race neutral wage labor for former slaves rather the abolition of slavery led to the emergence of multi racial societies wherein capital labor relations were characterized by new forms of extra market coercion that were explicitly linked to racial categories post slavery Brazilian society is a classic example of this pattern working within the context of the origin of the wage labor category in classical political economy Baronov begins by questioning the central role of wage labor within capitalist production through an examination of key works by Smith Ricardo and Marx as well as the historical conditions informing their analyses the study then turns to the specific case of Brazil between 1850-1888 comparing the abolition of slavery in three Brazilian regions the northeast sugar region the Paraíba valley and western São Paulo through this analysis Baronov provides a critique of the dominant interpretation of abolition as a transition from slave labor to wage labor and suggests an alternative interpretation that

places a greater emphasis on the role of non wage labor forms and extra market factors in the shaping of the post slavery social order

the pronunciamiento a formal list of grievances designed to spark political change in nineteenth century mexico was a problematic yet necessary practice although pronunciamientos rarely achieved the goals for which they were undertaken and sometimes resulted in armed rebellion they were nonetheless both celebrated and commemorated and the perceptions and representations of pronunciamientos themselves reflected the mexican people s response to these revolutions the third in a series of books examining the pronunciamiento this collection addresses the complicated legacy of pronunciamientos and their place in mexican political culture the essays explore the sacralization and legitimization of these revolts and of their leaders in the nation s history and consider why these celebrations proved ultimately ineffective in consecrating the pronunciamiento as a force for good rather than one motivated by desires for power promotion and plunder celebrating insurrection offers readers interpretations of acts of celebration and commemoration that explain the uneasy adoption of pronunciamientos as mexico s preferred means of effecting political change during this turbulent period in the nation s history
