praise for how i became a quant led by two top notch quants richard r lindsey and barry schachter how i became a quant details the quirky world of quantitative analysis through stories told by some of today s most successful quants for anyone who might have thought otherwise there are engaging personalities behind all that number crunching ira kawaller kawaller co and the kawaller fund a fun and fascinating read this book tells the story of how academics physicists mathematicians and other scientists became professional investors managing billions david a krell president and ceo international securities exchange how i became a quant should be must reading for all students with a quantitative aptitude it provides fascinating examples of the dynamic career opportunities potentially open to anyone with the skills and passion for quantitative analysis roy d henriksson chief investment officer advanced portfolio management quants those who design and implement mathematical models for the pricing of derivatives assessment of risk or prediction of market movements are the backbone of today s investment industry as the greater volatility of current financial markets has driven investors to seek shelter from increasing uncertainty the quant revolution has given people the opportunity to avoid unwanted financial risk by literally trading it away or more specifically paying someone else to take on the unwanted risk how i became a quant reveals the faces behind the quant revolution offering you the chance to learn firsthand what it s like to be a quant today in this fascinating collection of wall street war stories more than two dozen quants detail their roots roles and contributions explaining what they do and how they do it as well as outlining the sometimes unexpected paths they have followed from the halls of academia to the front lines of an investment revolution

in december 2010 the government announced the affordable homes programme under which there is 1 8 billion capital funding in government grants to social housing providers the department for communities and local government has overall responsibility for the programme which is delivered by the homes and communities agency the department expects the programme to support the provision of approximately 80 000 homes in the four years from april 2011 to march 2015 through negotiation the agency reduced the average grant per home to 20 000 a third of that under the previous programme the reduction in the grant paid to providers for each home will be funded in part by housing providers being able to charge higher rents to tenants leading to an estimated 1 4 billion increase in housing benefit payments over 30 years the programme therefore shifts cost from one department to another on the one hand more of the new housing may be taken up by people on higher incomes so that the programme fails to meet the most pressing housing need at the same time the poorest tenants may be unable to afford the higher rents those who receive higher benefits may in turn find it even harder to find employment that pays enough and so there will be more people who are more likely to be locked into benefit dependency delivery of the new homes is

heavily skewed towards the end of the programme with many due to be built in the final year on sites which are not yet confirmed this leaves very little room for slippage

although the two intertwined at first the contributions of these settlement women to the development of the administrative state have been largely lost as the new field of public administration evolved from the research bureaus and diverged from social work camilla stivers now shows how public administration came to be dominated not just by science and business but also by masculinity calling into question much that is taken for granted about the profession and creating an alternative vision of public service
