hunger fear i am hungry afraid while it disappeared from all other romance languages to be replaced with a habeo structure the mihi est pattern is in romanian the most common way of expressing psychological or physiological states by means of synchronic and diachronic corpus studies the book investigates the status of the core arguments of the mihi est structure i e the dative experiencer and the nominative state noun as well as its evolution throughout the centuries the data analysis reveals that the dative experiencer syntactically behaves like nominative subjects whereas the state noun shows predicate behavior as for the evolution of the mihi est structure the analysis shows a certain tendency toward innovation since in present day romanian it can coerce nouns coming from other semantic fields into the construction s psychological or physiological interpretation could this be another unique trait of romanian which causes it to seemingly go against the tendency of most romance languages toward canonical marking of core arguments
