robert louis stevenson was born at edinburgh on the 13 november 1850 his father thomas and his grandfather robert were both distinguished light house engineers and the maternal grandfather balfour was a professor of moral philosophy who lived to be ninety years old there was therefore a combination of lux et veritas in the blood of young louis stevenson which in dr jekyll and mr hyde took the form of a luminous portrayal of a great moral idea in the language of pope stevenson s life was a long disease even as a child his weak lungs caused great anxiety to all the family except himself but although death loves a shining mark it took over forty years of continuous practice for the grim archer to send the black arrow home it is perhaps fortunate for english literature that his health was no better for the boy craved an active life and would doubtless have become an engineer he made a brave attempt to pursue this calling but it was soon evident that his constitution made it impossible after desultory schooling and an immense amount of general reading he entered the university of edinburgh and then tried the study of law although the thought of this profession became more and more repugnant and finally intolerable he passed his final

examinations satisfactorily this was in 1875 he had already begun a series of excursions to the south of france and other places in search of a climate more favorable to his incipient malady and every return to edinburgh proved more and more conclusively that he could not live in scotch mists he had made the acquaintance of a number of literary men and he was consumed with a burning ambition to become a writer like ibsen s master builder there was a troll in his blood which drew him away to the continent on inland voyages with a canoe and lonely tramps with a donkey these gave him material for books full of brilliant pictures shrewd observations and irrepressible humour he contributed various articles to magazines which were immediately recognised by critics like leslie stephen as bearing the unmistakable mark of literary genius but they attracted almost no attention from the general reading public and their author had only the consciousness of good work for his reward in 1880 he was married Ê

excerpt from Robert Browning's essays and thoughts in an age when knowledge for its own sake is by a large class of men as eagerly sought as gold some apology seems necessary for a composition which professedly avoids facts and deals in speculation more especially would this apology seem to be due from anyone attempting to handle the works of a master the beneficence of whose genius has led him to range in fields of knowledge so wide and for their own sake to store harvests of learning so plenteous any such apology as may be due on this ground I am willing to make but I should fail in my duty of respect were I to stop there and refrain from expressing though in feeble words the extent of my debt in another way about the publisher Forgotten Books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work Forgotten Books uses state-of-the-art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Robert Greene contemporary of Shakespeare and Marlowe and member of the group of six known as the University Wits is the subject of this essay collection the first to be dedicated solely to his work although in his short lifetime Greene published some three dozen prose works composed at least five plays and was one of the period's most recognized even notorious literary figures his place within the canon of Renaissance writers has been marginal at best writing Robert Greene offers a reappraisal of Greene's career and of his contribution to Elizabethan culture rather than drawing lines between Greene's work for the pamphlet market and for the professional theatres the essays in the volume imagine his writing on a continuum some essays trace the ways in which Greene's poetry and prose navigate differing cultural economies others consider how the full spectrum of his writing contributes to an emergent professional discourse about popular print and theatrical culture the volume includes an annotated bibliography of recent scholarship on Greene and three valuable appendices presenting apocrypha edition information and editions organized by year of publication
