Zipes rescues them from sentimental obscurity; no longer figures in fairy tale, the Brothers Grimm emerge as powerful creators, real men who established the fairy tale as one of our great literary institutions. The main aim of this book is to provide teaching ideas that can be adapted to different learning environments and that can be used with different language combinations. The pedagogical approach and the activities, tasks, and projects are based on communicative, humanistic, and socioconstructivist principles. The students are actively involved in their learning process by making decisions and interacting with each other in a classroom setting that is a discussion forum and hands-on workshop. Clear aims are specified for the activities, which move from the most rudimentary level of the word to the more complicated issues of syntax and finally to those of cultural difference. Moreover, they attempt to synthesize various translation theories, not only those based on linguistics but those derived from cultural studies as well. This volume will be of interest to translation teachers, to foreign language teachers who wish to include translation in their classes, to graduates and professional translators interested in becoming teachers, and also to administrators exploring the possibility of starting a new translation programme.

Children's literature shapes what children learn about the world; it reflects social values, norms, and stereotypes. This book offers fresh insights into some of the key issues in fiction for children, from the representation of gender to embodied cognition and the translation of children's literature. Connecting classic children's texts such as *Alice in Wonderland* with contemporary fiction, including *Murder Most Unladylike*, the book innovatively brings together perspectives from corpus linguistics, stylistics, cognitive linguistics, literary and cultural studies, and human geography. It explores approaches to experiencing fiction as well as methods for the study of literary texts. Childhood discourses are investigated through the materiality of texts, the spaces that literature takes up in libraries, the cultural history of fiction moulded through performances, as well as reading environments that shape childhood experiences such as fashion and urban spaces. Children's literature and childhood discourses emphasize the crucial link between fictional stories and real life.
