this book presents a new theory of market and capitalism detailing its key moments and general logic it is based on the distinction between two market types the simple commodity market and the capitalist one in contrast to what is usually uncritically accepted disequilibrium and imperfect competition are admitted here to be a functional norm of the capitalist market the book also shows that equilibrium and perfect competition are admitted to be a functional anomaly with crises considered as the result of such an anomaly it details the general principles and concrete measures of crisis proof policies and behavior

assessment of nonorthopedic sports injuries a sideline reference manual is a concise and user friendly guide that will benefit both the clinician and the student this handy manual will help the clinician evaluate and treat nonorthopedic injuries on the sidelines at sporting events and can also be used as a study guide for students in the classroom this well organized reference guide contains algorithms tables and illustrations along with chapters that include an introduction and brief anatomy review where applicable the algorithms are designed to rule out potentially catastrophic injuries such as cervical spine and head injuries the algorithms will then guide the clinician through an evaluation specific to the injury so that a differentiation can be made between the signs and symptoms indicative of serious conditions and those that are relatively benign assessment of nonorthopedic sports injuries a sideline reference manual is a valuable book that will easily fit into a medical bag and have use as a crossover manual from the classroom to the playing field
