living the questions of the bible presents questioning as a viable and faithful christian practice we
may think the bible is only about getting answers but the bible is also a question book revealing how
the life of faith is a quest with and for god by exploring various passages in the bible this book
attempts to invite readers into an interrogative spirituality one in which we learn that even god
questions faith seeks and keeps on seeking it may reach understanding or it may not either way our
questions are a way to live the christian life honestly faithfully and doxologically

in project based learning applied to the language classroom the authors propose a way to develop pbl
in the language classrooms taking into account all of the obstacles and specifics involved in
teaching a foreign language it is about teaching english as a second or foreign language using
project based learning pbl we approach this combination because many people seem to think about
implementing pbl in their language classes and ask questions about how to do it but feel that there

aren't enough materials based on this methodology in fact most researchers and writers we have come across discuss the applications of pbl in the students mother tongue to subjects such as math history literature social studies and science however there are few published works about the specifics of pbl in foreign language classes besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language

this book on self improving systems is the seventh in a planned series of books that examine key topics e.g. learner modeling instructional strategies authoring domain modeling assessment impact on learning team tutoring self improving systems data visualization in intelligent tutoring system its design this book focuses on self improving systems the discussion chapters in this book examine topics through the lens of the generalized intelligent framework for tutoring gift gift is a modular service oriented architecture created to reduce the cost and skill required to author itss distribute itss manage instruction within itss and evaluate the effect of its technologies on learning performance retention transfer of skills and other instructional outcomes
