this open access book discusses the emergence and development and in some cases also the disappearance of social movements and activism in sweden during the 1980s its aim is to nuance and problematize the image of the 1980s as unilaterally dominated by right wing politics and neoliberalism as well as the idea of a conflict free scandinavian model the 1980s have often been described as a period when the influence of radical left movements during the 1970s diminished instead this book argues that the 1980s was a decade in which new radical social movements emerged in opposition to the prevalent political order including the nuclear disarmament movement the women s movement anti fascist movements and the punk and environmental movements the authors also demonstrate how issues such as squatting nuclear resistance rent strikes and the environment included a variety of contentious collective action sweden therefore presents an interesting example of how resistance and conflict in a strong welfare state have been influenced by contentious social movements placing sweden within the wider context of scandinavia and europe this edited collection makes an important contribution to the history of social movements

despite the growing significance of social movements worldwide scholarship on the subject remains largely western in nature with studies written primarily by western scholars and based on the experiences of western cultures and societies this book makes an important contribution to the study of social movements in non western societies by examining their development in iran with a particular focus on the recent environmental movement the author sheds new light on the implications and significance of these movements drawing on in depth original research the case study of the environmental movement is integrated into a historical and comparative analysis implementing the new social movement theory of touraine and melucci in the iranian context the author shows that although the reform movement of iran is unique in some aspects it is a continuation of the past social movements she places emphasis on the role of women in recent iranian social movements exploring the significance of social movements in civil society and in instigating social change using the case of iran to offer a critical framework for studying social change and transformation of non european countries this book fills an important gap in the existing literature on the topic as such it will be of great interest to scholars and students of sociology political science and middle eastern studies
