designed for classroom use this book develops a framework for the comparative analysis of political ideologies and examines the most prominent political ideologies of modern time this revised edition has been enlarged to include feminism and environmentalism

islamic capital markets a comparative approach 2nd edition looks at the similarities and differences between islamic capital markets and conventional capital markets the book explains each topic from both the conventional and the islamic perspective offering a full understanding of islamic capital markets processes and instruments in addition to a full explanation of islamic products the book also ensures a holistic understanding of the dual markets within which islamic capital markets operate ideal for both students and current practitioners the second edition of the highly successful islamic capital markets a comparative approach fills a large gap in the current literature on the subject featuring case studies from malaysia indonesia europe and the middle east one of the few comprehensive dedicated guides to the subject available the book offers comprehensive and in depth insights on the topic of islamic finance for students and professionals alike

comparison is fundamental to evolutionary anthropology when scientists study chimpanzee cognition for example they compare chimp performance on cognitive tasks to the performance of human children on the same tasks and when new fossils are found such as those of the tiny humans of flores scientists compare these remains to other fossils and contemporary humans comparison provides a way to draw general inferences about the evolution of traits and therefore has long been the cornerstone of efforts to understand biological and cultural diversity individual studies of fossilized remains living species or human populations are the essential units of analysis in a comparative study bringing these elements into a broader comparative framework allows the puzzle pieces to fall into place creating a means of testing adaptive hypotheses and generating new ones with this book charles l nunn intends to ensure that evolutionary anthropologists and organismal biologists have the tools to realize the potential of comparative research nunn provides a wide ranging investigation of the comparative foundations of evolutionary anthropology in past and present research including studies of animal behavior biodiversity linguistic evolution allometry and cross cultural variation he also points the way to the future exploring the new phylogeny based comparative approaches and offering a how to manual for scientists who wish to incorporate these new methods into their research

this book provides a framework for explaining why governments adopt the policies they do in addition it establishes a basis for comparing political systems in terms of their public policies rather than their institutions or political processes the book begins by placing in a historical perspective the worldwide role of the state as a major provider of goods and services following this general background is an accounting scheme that brings some semblance of order to the seemingly infinite variety of policy relevant variables and makes the comparative study of public policy more manageable it is suggested that any nation s public policies can be explained in terms of situational structural environmental and cultural factors the second part of the book applies the accounting scheme to an increasingly specific and narrow range of public policies the author examines one crucial area of

public policy health care and the evolution of that policy in four diverse nations germany great britain the soviet union and japan the book concludes with an assessment of the prospects for an american national health care programme in the light of the experiences of these other nations

now in its second edition and with significant updates and new material gilles cuniberti s innovative textbook offers a comparative treatment of private international law a field of great importance in an increasingly globalized world written by a leading voice in the field and using a text and cases approach this text systematically presents and compares civil law and common law approaches to issues primarily within the united kingdom united states france and the eu as well as offering additional updated insights into rules applicable in other jurisdictions such as japan china and germany

in this volume outstanding specialists review the state of the art in nervous system research for all main invertebrate groups they provide a comprehensive up to date analysis important for everyone working on neuronal aspects of single groups as well as taking into account the phylogenesis of invertebrates the articles report on recently gained knowledge about diversification in the invertebrate nervous systems and demonstrate the analytical power of a comparative approach novel techniques in molecular and developmental biology are creating new perspectives that point toward a theoretical foundation for a modern organismic biology the comparative approach as documented here will engage the interest of anyone challenged by the problem of structural diversification in biology

comparative approaches to law and religion examines the methodological challenges of studying the interplay between law and religion across diverse jurisdictions this volume fills a critical gap in the literature by focusing on how to conduct comparative research offering both theoretical foundations and practical applications scholars from varied legal and cultural backgrounds contributed chapters that showcase innovative methodologies tailored to specific issues in law and religion the book is divided into three parts part i explores the foundational theories methods and frameworks of comparative research in law and religion addressing state religion models legal pluralism and the inclusion of minors in research part ii applies these approaches through comparative case studies tackling topics such as medical treatment for minors religious freedom in the eu and judicial populism in religion related cases part iii provides a critical evaluation of the methodologies employed encouraging reflection and dialogue on their strengths limitations and broader applicability this volume is an essential resource for scholars of law and religion and comparative law by offering a blend of theoretical insights and practical examples it equips researchers with the tools to navigate the complexities of interdisciplinary and comparative legal studies across varied jurisdictions and traditions

comparative case studies are an effective qualitative tool for researching the impact of policy and practice in various fields of social research including education developed in response to the inadequacy of traditional case study approaches comparative case studies are highly effective

because of their ability to synthesize information across time and space in rethinking case study research a comparative approach the authors describe explain and illustrate the horizontal vertical and transversal axes of comparative case studies in order to help readers develop their own comparative case study research designs in six concise chapters two experts employ geographically distinct case studies from tanzania to guatemala to the u s to show how this innovative approach applies to the operation of policy and practice across multiple social fields with examples and activities from anthropology development studies and policy studies this volume is written for researchers especially graduate students in the fields of education and the interpretive social sciences

this title was first published in 2002 examining problems that have caused much debate within political science this book seeks to identify a proper place for the analysis of culture and values within political science it goes on to explore the impact of globalization upon society

examining problems that have caused much debate within political science this book seeks to identify a proper place for the analysis of culture and values within political science it goes on to explore the impact of globalization upon society

cavadino and dignan s penal systems a comparative approach looks across national boundaries to see how penal systems differ and why it is hands down the most comprehensive and up to date book on the subject and should become a staple textbook for use in law and social science courses on comparative penal policy and practice michael h tonry university of minnesota this book is an important addition to the literature on punishment it is a highly readable and very well researched overview of some of the major differences in punitiveness between neo liberal corporatist and social democratic countries this is a major contribution to comparative penology by two of the leading authors in this field alison liebling director of the prisons research centre uk a major and seminal work david downes professor emeritus at the london school of economics penal systems a comparative approach is a comprehensive and original introduction to the comparative study of punishment analysing twelve countries cavadino and dignan offer an integrated and theoretically rigorous approach to comparative penology they draw upon material provided by a team of eminent penologists to produce an important and highly readable contribution to scholarship in this area early chapters introduce the reader to comparative penology set out the theoretical framework and consider whether there is currently a global penal crisis each country is then discussed in turn chapters on comparative youth justice and the privatization of prisons follow comparisons between countries are drawn within each chapter giving the reader a synoptic and truly comparative vision of penalty in different jurisdictions

configurational comparative methods paves the way for an innovative approach to empirical scientific work through a strategy that integrates key strengths of both qualitative case oriented and quantitative variable oriented approaches this first of its kind text is ideally suited for small n or intermediate n research situations which both mainstream qualitative and quantitative methods find difficult to address benoît rioux and charles c

ragin along with their contributing authors offer both a basic comparative research design overview and a technical and hands on review of crisp set qca csqca multi value qca mvqca and fuzzy set qca fsqca key features discusses existing applications in many different fields and disciplines along with state of the art coverage of the strengths and limitations of these techniques demonstrates further inventive ways of using qca techniques provides advice on how to develop a comparative research design case and variable selection as well as a specific technique called msdo mdso most similar different outcome most different same outcome shows how to perform the technical operations linked to three specific qca techniques csqca mvqca and fsqca includes a glossary an extensive bibliography and a detailed list of good practices at every stage of the research process intended audience a must for any student or researcher who wants to engage in systematic cross case comparison in the social and behavioral sciences the book is ideal for use in upper level undergraduate and graduate level social science research methods courses
