2000 2005 state textbook adoption rowan salisbury

this unusual collection of conversations with leading environmental thinkers breaks down the conventional separation between thinking and living the presentations of ecological ideas are not only superior but often eloquent and powerful and incorporate the latest information available since many of the chapters give quite full accounts of the interviewees careers the book will also provide inspiration to young readers ernest callenbach author of ecology a pocket guide the recurring theme of environmental emergency comes through loud and clear in all of the interviews but this book also shows that it is people who make things happen not the great gray they or we we learn exactly who it was that discovered the hole in the ozone layer and who invented the ideas of gaia and the population bomb if i had my way i would make this book required reading for students across all disciplines because its message is profound urgent compelling and relevant to everyone anthony j f griffiths university of british columbia winner of the genetics society of canada award of excellence life stories should be required reading the reverence for life expressed by these heroes is deeply moving their fierce determination ought to inspire all of us as we confront the environmental challenges of the new millennium denis hayes international chair earth day 2000 we start the twenty first century with a heightened awareness that our planet is under stress life stories illustrates that the human spirit has the capacity to set forces in motion that will save our habitat heather newbold introduces us to scientists who have probed the mysteries of our natural systems and taken action so our earth can heal itself as we meet them our own hope for the future is inspired peter a a berle host of the environment show on public radio these mini autobiographies are captivating challenging and worrisome we can successfully meet the challenge but will we this is attention grabbing stuff once you start reading this book it will capture and hold you to the last page senator gaylord nelson founder of earth day

peter sursile is stressed by day he finds himself beset by the troublesome behavior of his petulant young fiancée eliza and by the unrelenting pressure to write his phd thesis which is all that stands between him and the future he rightly deserves but deciding on just the right topic has proven to be easier said than done by night a vivid recurring nightmare of a horrific train wreck and a mortally injured woman in the wreckage who hauntingly repeats the phrase peter it's time has plagued his sleep for weeks yet even after an unnerving encounter with an ancient white maned shaman he remains stubbornly convinced that these and other strange happenings are merely stress related but something he hears during his run in with the shaman compels him to research a certain upstate new york town and for his effort is seemingly rewarded with what appears to be the thesis topic he's been looking for however revelations surrounding the inspiration for his research lead him to binghamton ny where sudden unprecedented violence has brought the city to its knees his journey exposes the true purpose of his nightmare reveals the identity of the woman in the wreckage and explains the nature of events which will likely destroy the city if left unchecked but success is far less certain than the consequences should he fail to reveal a 19th century curse to its 21st century victims
