educate design and legal professionals on the legal issues impacting the design industry

who should use this bookthis book is all about the engineering services commonly installed in new and refurbished commercial
buildings the information provided will be useful to both students and building professionals architects builders consulting
engineers property and facilities managers and surveyors in fact anyone associated with the building industry who needs a
broad overview of the impact these services have on building design without getting too involved in the engineering details
early designthe aim is to assist non engineering specialists and commercial property and building industry professionals to
participate in and understand early design processes and decisions for air conditioning heating ventilating electrical power
vertical transport fire protection and water supply are covered all of which can require significant space and affect other

components of the total design the very early stage is without doubt the most critical period of the entire building design process this is a time when all members of the design team need to get a realistic feel for what the finished building will look like a reasonably accurate though approximate prediction of the end result is an essential basis for early decision making on which future detailed design is based integrated design integrated design collaboration harnesses the talents and insights of all participants to optimise design efficiency through all phases of a project allowing all design team members to realize their full potential and expand the value of the services they provide throughout the project lifecycle

cd rom contains samples of all aia contract documents

thomas dion's land development has become a standard reference for the engineering information needed in site development this revised edition brings the work completely up to date with current practices and procedures

now you can keep construction design exposure to a minimum prepared for design and construction professionals and their attorneys this comprehensive up to date resource was written by eminent authorities in the field it details all relevant topics risk management alternative dispute resolution trial conduct handling shop drawings insurance and surety and more you'll get straightforward answers to all your legal questions as well as examples of the valuable lessons learned by leading design and construction experts
