theodore porter s portrait of pearson extends from religious crisis and sexual tensions to metaphysical and even mathematical anxieties pearson sought to reconcile reason with enthusiasm and to achieve the impersonal perspective of science without sacrificing complex individuality even as he longed to experience nature directly and intimately he identified science with renunciation and positivistic detachment porter finds a turning point in pearson s career where his humanistic interests gave way to statistical ones in his grammar of science 1892 in which he attempted to establish scientific method as the moral educational basis for a refashioned culture book jacket

examines canada s contributions to space exploration and profiles famous canadian astronauts such as roberta bondar the first canadian woman in space

under the editorship of david raitt this timely book brings together for the first time the record of people places developments and activities in fiction and in fact of the space elevator a 100 000 km long meter wide ribbon reaching up from the earth and into space along which robotic climbers that will travel to bring payloads into orbit at a fraction of the price of rocket launches the chapters in the book cover the early pioneers who dreamt up the concept initially some 120 years ago the work of modern day scientists and engineers who have developed the concept into doable plans how the concept has been portrayed in novels films and art the conferences at which interested people could present and discuss their work and ideas the global community that has grown up around space elevators and the competition challenges that have been held and what the future may hold

stepping stones to the stars is the story of manned spaceflight from its inception to the era of the space shuttle it begins with a short history of the evolution of the rocket before describing the first manned rocket flights by both the americans and the russians there is also the little known story of what is thought to be the earliest manned rocket flight said to

have taken place in 1933 on the island of rügen in the baltic under the control of the german war ministry the story continues through yuri gagarin becoming the first person in space and neil armstrong s giant leap for mankind to the first space stations skylab saljut and mir with the development of the shuttle the usa moved ahead in the space race but the americans and russians soon realised that it was easier to co operate than compete and the two nations began to work together for the first time terry c treadwell s book is a non technical history of human spaceflight that tells the exciting and dramatic story of how we took our early steps towards the stars

2 volume set the valuable information in pearson s handbook is now more affordable in a handy desk reference 27 686 entries of the highest quality crystal data representing 27 686 different compounds structure type given for all entries 54 per cent of entries include the coordinates of the atoms 605 entries are filled up structure 1 730 structure types have been assigned by the editor 6 426 belong to berthollide compounds data included up to 1995 6 year update to the second edition 12 year update to the first edition full 167 page structure type index with all its representatives entries include full information as in the second edition comprises all the international literature from 1913 to 1995 includes detailed crystallographic data for unary binary and ternary phases excluding halides and ternary or quaternary oxides fully revised and updated covers more than 27 000 compounds with all data critically evaluated includes the following improvements over the original pearson s additional literature years between 1989 to 1995 have been covered completely and comprehensively based on searches of more than 130 journals and more than 10 000 abstract pages per year entries contain additional information such as calculated density color more detailed diffraction data standard deviation of unit cell dimension s point set symmetry and full reference including publication title all entries and structure types have been computer checked for consistency and correctness all crystallographic data are now given in the standard setting according to the international tables for crystallography include a six year update of the data in the second edition

caelan is a space nut he knows more about space than anyone in his school even the teachers his ultimate dream is to go into space so when a space ship turns up in his backyard it seems dreams really do come true or do they
