awarded second place in the 2018 AJN Book of the Year Awards in Medical/Surgical Nursing. Healthcare is evolving at an incredible pace, and with it, the roles and responsibilities of the medical/surgical nurse. Ensure you are fully equipped to thrive and adapt in this ever-changing nursing environment with Ignatavicius's *Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care*, 9th edition. This trendsetting text not only covers all essential adult health knowledge but also reinforces the application of conceptual thinking and clinical judgment skills that today's nurses need to stay one step ahead in delivering exceptional patient care, no matter the environment. As with previous editions, you'll find a unique collaborative care approach to adult health nursing, a thorough integration of QSEN competencies, extensive NCLEX exam preparation, and a direct reader-friendly tone throughout the text. This ninth edition incorporates two emerging and complementary trends: the core competencies for interprofessional collaborative practice and a more conceptual approach to teaching and learning areas that will ground you in how to think like a nurse and how to apply the knowledge you gain from the text to clinical practice. There are a lot of med/surg nursing texts out there, but there's only one that combines all the information, concepts, and on-the-job realities in a way that makes perfect sense. Ignatavicius's trendsetting QSEN integration emphasizes patient safety and evidence-based practice with nursing safety priority boxes, including drug alerts, critical rescues, and action alerts. Unique emphasis on clinical judgment helps you develop skills in clinical reasoning and clinical decision making when applying concepts to clinical situations. Strong emphasis on NCLEX exam preparation includes chapter-opening learning outcomes and chapter-ending "Get Ready for the NCLEX Examination" sections organized by NCLEX client needs categories, plus NCLEX examination challenge questions with an answer key in the back of the book and on the Evolve companion website. Exceptionally readable content features shorter sentences, straightforward vocabulary, and a direct reader-friendly writing style.

includes section books and reports

Using a caring and wellness framework, this text promotes a humanistic approach to the care of older adults of diverse cultural backgrounds in all care settings. The book examines and discusses the complete cross-section of the lives and difficulties of the elderly and the nurses who care for them, under topics such as spirituality, cultural diversity, sexuality, polypharmacy, falls, and other safety issues, sensory alterations, immunologic concerns, Alzheimer's disease, caregiver stress, professional stress, and homelessness.
