for over fifty years steven m cahn has been a prolific contributor to discussions of philosophical and educational issues in this volume he has chosen his favorite articles from the 1960s to the present reflecting his long standing interests in the concept of free will the rationality of religious belief the insights of john dewey the affirmative action debate the aims of higher education and the nature of living well also included are several philosophical puzzles professor cahn is a noted teacher and lecturer and these essays reflect his skills at explaining complex ideas with clarity and defending challenging positions with cogency his work demonstrates how philosophical inquiry can be both engaging and enlightening

respect and criminal justice offers the first sustained examination of respect in criminal justice in England and Wales where the value is elusive but of persisting significance. Advancing a critique of the respect deficit in policing and imprisonment, the book is concerned with the ways in which both institutions are merely constrained and not characterised by respect. It emerges that they appeal to the word 'respect' relying on its inclusive ethos in official discourse when it is expedient to do so but rarely and only superficially address the prior question of what it is to respect and be respected. The result is that respect is more akin to a slogan than a foundational value of criminal justice practice. The book will be of interest to academics and students across the humanities and social sciences and especially in law, criminal justice and philosophy as well as criminal justice practitioners and policymakers.

Most believers and their critics agree that religious commitment relies on the acceptance of supernaturalism. Steven M. Cahn argues to the contrary; he maintains that theism is neither necessary nor sufficient for adherence to a religious outlook. He writes in a nonpolemical spirit about morality, the problem of evil, faith, miracles, heaven, mystical experience, and religious diversity. His book develops a strong case for the reconciliation of science and religion.

This volume completes a trilogy of Steven M. Cahn's shorter writings that includes *The Road Traveled* and *Other Essays* (2019) and *A Philosopher's Journey* (2020). Included here are his contributions to three philosophical debates: first, whether events are fated to occur; second, whether God is knowable; and third, whether morality can conflict with happiness. The book contains not only Cahn's essays but also edited versions of the writings to which he is responding, thereby putting his remarks into context and rendering them accessible to all. These pieces make clear why Professor Cahn is regarded as one of the leading philosophy teachers of his generation.

This expanded edition of a celebrated book by philosopher and educator Steven M. Cahn offers sound advice on building a successful academic career. He explains how to plan, complete, and defend a dissertation; how to handle interviews for academic positions; how to improve your teaching; how to prepare and publish research; how to develop a professional network; and how to garner support for earning tenure. Whether you are considering enrolling in graduate school, seeking an academic position, or balancing the demands of a professorial career, you will find valuable guidance in Cahn's insightful account of the ways of academia.
