knowledge understanding and skills to succeed in their course this endorsed cambridge international as and a level economics revision guide has been designed to further develop students skills for their cambridge international as and a level economics course revised to meet the latest syllabus 9708 this book is packed full of guidance to reinforce students understanding and skills to succeed in their course written in a clear style by an experienced examiner this revision guide is perfect for international learners and accompanies the cambridge international as and a level economics coursebook third edition

central to the current development debate is the importance of human welfare in the context of group conflict when considering ethnic racial and religious conflict this debate draws us toward a political economy of conflict moreover notions of an economic paradigm have become prominent when international organizations debate conflict prevention in looking closer at the political economy of conflict this publication argues the need to assimilate into our thinking distinct social and ethical economies of conflict prevention a social economy of conflict prevention considers the interplay of economic with structural and cultural factors in conflict explaining a much neglected category of conflict i e hidden conflict the ethical economy of conflict prevention considers implicit ethical statements development practitioners use from these statements arise ethical paradoxes that influence the evolving economic paradigm in such way as to contradict one of its intrinsic desires namely to restrict conflict prevention strategies to effective technical interventions eventually such narrow focus on technical interventions could identify this evolving paradigm as an economical paradigm in contrast a rethinking of the ethical economy of conflict prevention provides a useful tool for international organizations when implementing a human rights based approach to development and long term conflict prevention

budget deficits gas prices health care costs social security job security anxiety over the economy pervades our daily lives from reports on the early morning newscasts to gossip around the water cooler to dinner table debate yet most citizens are woefully ignorant when it comes to understanding how the economy works and how to interpret the impact of policies and business decisions it s easy to slip into generalities government spending is wasteful taxes are too high good paying jobs are being shipped overseas americans don t save enough other issues become hijacked by political partisans to advance their agendas trade must be fair tax cuts will pay for themselves there will be no money left in the social security till after the baby boomers loot it in smart economics michael walden provides an antidote take 50 of today s top economic issues and explain their meaning implications and potential solutions in a logical straightforward

commonsense and non partisan way has government spending been out of control is profit bad walden applies basic economic concepts and logical argumentation to help readers get their bearings to separate fact from fiction and ultimately make better economic decisions themselves the result is an entertaining and highly informative introduction to economic principles and their influence on our behavior in smart economics michael walden provides an antidote take 50 of today s top economic issues and explain their meaning implications and potential solutions in a logical straightforward commonsense and non partisan way from has government spending been out of control to is profit bad to why are pro sports stars paid so much walden demystifies the dismal science using basic concepts and logical argumentation to help readers get their bearings to separate fact from fiction and ultimately make better decisions when it comes to spending investing saving and voting the result is an entertaining and informative introduction to economic principles and their influence on our behavior

authors james d gwartney richard l stroup russell s sobel and david macpherson believe that a course on principles of economics should focus on the power and relevance of the economic way of thinking it is this belief and corresponding writing approach that has made economics private and public choice one of south western most solid and enduring texts throughout this text the authors integrate applications and real world data in an effort to make the basic concepts of economics come alive for the reader

from how the current crisis happened to the role of banks to how money works this book addresses complex ideas in an easy to understand q a format with lively prose with examples throughout from personal finance issues such as how to negotiate the best price for a car and should you buy a warranty for a new computer to big picture questions that affect our national and global economy such as what is deflation and inflation how does monetary policy really work how does a corporation actually go bankrupt

quick win economics is aimed at practical people who understand that economics is important because economic models inform the most powerful people in the world who make decisions based on the advice of economists those decisions affect the daily lives of millions of people for better and for worse the mistakes of economists can have serious consequences it pays to know what they are talking about quick win economics will help you decode economic phenomena for example you ll find out exactly why a change in central bank lending rates will change your mortgage making you richer or poorer why big macs don t cost the same in every country and how economists would deal with pollution quick win economics is designed to let you dip in and out as you d like looking for answers to questions you might have or just for a place to start to understand the
