a definitive authoritative and up to date resource for anyone interested in the theories models and assessment methods used for understanding the many facets of human personality and individual differences this brand new handbook of personality theory and assessment 2 volume set constitutes an essential resource for shaping the future of the scientific foundation of personality research measurement and practice there is need for an up to date and international handbook that reviews the major contemporary personality models vol 1 and associated psychometric measurement instruments vol 2 that underpin the scientific study of this important area of

individual differences psychology and in these two handbooks this is very much achieved made unique by its depth and breadth the handbooks are internationally edited and authored by professors gregory j boyle gerald matthews and donald h saklofske and authored by internationally known academics this work will be an important reference work for a host of researchers and practitioners in the fields of individual differences and personality assessment clinical psychology educational psychology work and organizational psychology health psychology and other applied fields as well volume 2 personality measurement and assessment covers psychometric measurement of personality and has coverage of the following broad topics listed by section heading general methodological issues multidimensional personality instruments assessment of biologically based traits assessment of self regulative traits implicit projective and objective measures of personality abnormal personality trait instruments applications of psychological testing

widely used by practitioners researchers and students and now thoroughly revised with 70 new material this is the most authoritative comprehensive book on malingering and related response styles leading experts translate state of the art research into clear usable strategies for detecting deception in a wide range of psychological and psychiatric assessment contexts including forensic settings the book examines dissimulation across multiple domains mental disorders cognitive impairments and medical complaints it describes and critically evaluates evidence based applications of multiscale inventories other psychological measures and specialized methods applications are discussed for specific populations such as sex offenders children and adolescents and law enforcement personnel key words subject areas malingering deception deceptive feigning dissimulation feigned cognitive impairment feigned conditions defensiveness response styles response bias impression management false memories forensic psychological assessments forensic assessments clinical assessments forensic mental health forensic psychological evaluations forensic psychologists forensic psychiatrists psychological testing and assessment detection strategies expert testimony expert witnesses family law child custody disputes child protection child welfare audience forensic psychologists and psychiatrists other mental health practitioners involved in interviewing and assessment including clinical psychologists social workers psychiatrists and counselors also of interest to legal professionals

this book owes its existence to an ideal a burning frustration and a trusted believer the ideal was the sense that governed my feelings about systematic desensitization during my early introduction to its benefits it is hard to put into words the initial doubts that pervaded me during my first attempt with desensitization with a seriously phobic client as i religiously worked my way through the procedure will this client really become relaxed and then what will the visualization actually occur and then what will the fear really vanish just like that and oh the feeling of discovery and validation when indeed the process worked and worked well desensitization was everything it was claimed to be systematic clean theoretically grounded empirically tested applicable as a behavioral technology regardless of one s own theoretical bias

and there were testable outcomes concrete evidence for change so i became invested and aimed at doing more with desensitization my students and i raised some theoretical questions in order to open the doors for revising the desensitization to improve on its applications we tested the rapidity with which desensitization could be accomplished shortening the time by shortening the anxiety hierarchy along with others we studied the question of group delivery and reducing the total number of sessions as well as examining the use of audiotaped delivery of services

representing the most exhaustive literature survey of the intelligence test performance of american negroes yet attempted this book covers over 300 references that appeared between 1913 and 1957

because testing has long been regarded as an important role for counselors they traditionally have provided a variety of testing services including personality vocational intellectual and aptitude testing a major purpose of this book is to show how these kinds of tests can be used to augment and facilitate the counseling process testing in counseling practice provides current information about various tests and assessment methods such as historical foundations and conceptual background measurement properties administration and interpretation implementation and future research directions the book is divided into three sections personality assessment vocational assessment and contemporary issues and innovations each chapter is written either by the person who developed and originated the test assessment method or by the person who is regarded as the major interpreter of it case examples showing how various test assessment methods can be used in counseling practice are also included

a new introduction from the buros institute the buros desk reference series is composed of individual volumes containing reviews of test instruments commonly used in particular areas the first edition in this series brings together reviews of over one hundred tests most frequently used by school psychologists entries include reviews taken from the mental measurements yearbook along with descriptions of population purpose scoring publisher etc taken from tests in print iv the book is organized by category e g intelligence personality behavior ratings and also includes a title index score index and publishers directory the convenient size and easy to locate information in this publication makes it an ideal desktop companion

explains how to conduct clinical research in the area of communicative disorders related to cleft lip and palate and related craniofacial disorders new and expanded topics covered in this fifth edition include 1 the significance and efficacy of collaborative research 2 the quality of care provided in the field 3 current specific techniques found effective for managing the most difficult speech patterns when

subjects display strongly habituated retracted gross misarticulation error patterns due to learning to speak with velopharyngeal incompetence and much more

an overview for college students of the diagnosis and placement of exceptional children

in addition to customary coverage of traditional topics and instruments the author provides detailed presentations for several topics not always found in other textbooks these topics include history of psychological testing early uses and abuses of intelligence neuropsychological foundations of ability factor analysis assessment of learning disabilities consumer assessment environmental assessment and courtroom testimony

originally published in 1983 this book provides a revealing and comprehensive perspective on nurse education in the 20th century the opening chapters look at the students themselves the sort of people who come into nursing and it examines why the drop out rate is high and how reality differs from expectations the following section examines teaching on the wards and the final part is concerned with the education and support of those involved in nurse teaching it includes a discussion of the nature of teaching and of ways of studying the teaching process as well as analysis of developments in the provision of library and information services to nurse educators nurse administrators and clinical nursing staff
