the author is a sociologist who has written extensively on human rights and recently on climate change in her new book she develops the idea that protecting everyone's human rights and slowing planetary warming are the same goals it is now clear that the leader of the richest most powerful country in the world united states president donald j trump has set the trigger of destruction by exempting the united states

from the international treaty that aims to give the entire planet some reprieve from warming that is all countries of the world have entered into an agreement to end reliance on fossil fuels except the united states which withdrew at the outset of the trump administration regardless of the us position in the future the country s emissions are so very extremely high they will continue to wreck havoc on the entire world while blau maintains that president trump has committed a crime against humanity even beyond his tenure the book sets the stage for a human rights approach to climate change for the future

humanity and nature in economic thought searching for the organic origins of the economy argues that organic elements seen as incompatible with rational homo economicus have been left out of or downplayed in mainstream histories of economic thought the chapters show that organic aspects that is aspects related to sensitive cognitive or social human qualities were present in the economic ideas of a wide range of important thinkers including hume smith malthus mill marshall keynes hayek and the polanyi brothers moreover the contributors to this thought provoking volume reveal in turn that these aspects were crucial to how these key figures thought about the economy this stimulating collection of essays will be of interest to advanced students and scholars of the history of economic thought economic philosophy heterodox economics moral philosophy and intellectual history

this volume examines the evolution of the depictions of black femininity in french visual culture as a prism through which to understand the global north s destructive relationship with the natural world drawing on a broad spectrum of archives extending back to the late 18th century paintings fashion plates prints photographs and films this study traces the intricate ways a patriarchal imperialism and a global capitalism have paired black women with the realm of nature to justify the exploitation both of people and of ecosystems these dehumanizing and speciesist strategies of subjugation have perpetuated interlocking patterns of social injustice and environmental depletion that constitute the

most salient challenges facing humankind today through a novel approach that merges visual studies critical race theory and animal studies this interdisciplinary investigation historicizes the evolution of the boundaries between human and non human animals during the modern period the book will be of interest to scholars working in art history visual studies critical race theory colonial and post colonial studies animal studies and french studies
