throughout the textbook including over 25 new case studies updated and new practitioner profiles

this text examines byron s lordship his singularity as a literary success and as one of the great british aristocratic poets drawing on contemporary literary political and social theory this study of byron also re examines the romanticism of coleridge wordsworth scott hazlitt and shelley

perhaps no great poet in any language has suffered more than byron from being merely read about rather than actually read as bernard beatty remarks in his introduction to this important collection of essays the popular conception of byron still often approximates to rupert everett with a limp reading byron is the product and summation of nearly sixty years devoted to studying and teaching his poetry it argues that far from being mad bad and dangerous to know byron is serious ethically orientated and rewarding to read the book is in three parts poems life politics five new essays have been written especially for the first and largest section which provides fresh perspectives on byron s major works the volume continues with three of beatty s lively lectures on unappreciated aspects of byron the man and three pithy essays on byron as a complex if not systematic political thinker while beatty does not question the pre eminent status of the bright don juan devoting a chapter to an unconventional reading of its final cantos he argues powerfully that nineteenth century readers who responded on an unprecedented scale to the forceful poetic structures of the dark byron in childe harold s pilgrimage the tales manfred and cain were right to do so introduced by jerome mcgann editor of the great clarendon edition of the poet s works and concluded in dialogue with gavin hopps co editor of the forthcoming longman edition reading byron is itself essential reading for any student or lover of romantic poetry
