life is precious the power to make life count is within your reach you must trust god not to leave this earth without leaving a deposit of eternity in the sands of time you are not ordinary inside you is the solution to the problems being encountered in the world you were ordained and brought to this earth to add taste to the world and to lighten every dark path the earnest expectation of the righteous is waiting for your full manifestation if nothing was deposited in your life to contribute

to your generation you will not be on the earth at this point in time walking this earth today and your encounter with a book like this is a sign that you are a solution provider to make your world a better place you are too loaded to leave this earth without off loading what you have inside of you this book contains a practical guide for making life count it contains the secret to living a victorious and triumphant life on earth the purpose of this book is to bless the nations of the world

a noted psychologist offers his best advice on how to make life more meaningful including how to cultivate a desire to influence future generations and lead a more generative life

among the biggest challenges facing leaders of the newly established people's republic of china prc was how much they did not know in 1949 at the end of a long sequence of wars the government of one of the largest states in the world committed to fundamentally re engineering its society and economy via socialist planning while having almost no hard reliable statistical data about their own country this book is a history of attempts made to resolve this crisis in counting drawing on a wealth of official institutional and private sources culled from china india and the united states the author explores the choices made and the effects they engendered through a series of vivid encounters with political leaders professional statisticians academics ordinary statistical workers and even literary figures early reliance on soviet inspired methods of enumeration became increasingly untenable in china by the middle of the 1950s a series of unprecedented and unexpected exchanges with indian statisticians followed as the chinese sought to learn about the then exciting new technology of random sampling these developments were in turn overtaken by the tumult of the great leap forward 1958 1961 when both probabilistic and exhaustive methods were rejected and statistics was refashioned into an essentially ethnographic enterprise the author argues that this history usually narrowly described as a universal if european history cannot be understood without acknowledging soviet and indian influences which not only revises existing models of cold war science but also globalizes the wider developments in the history of statistics and data for historians of china and social science and political scientists sociologists and anthropologists studying modern china
