in this updated second edition debating health care ethics explores contemporary

moral challenges in health care providing students with the essential tools to understand and critically evaluate the leading arguments in the field and to develop their own arguments on important moral problems in health care written in a clear and concise way the textbook's first three chapters explore the nature of arguments and ethical theories while the remaining chapters introduce students to moral problems in health care through case studies and dramas that feature complex scenarios involving patients family members and health care providers each case study and drama is followed by a lively debate where the authors defend their unique approaches to the dilemma this new edition now includes more gender inclusive dramas an expanded discussion of feminist ethics a case study on euthanasia that highlights changes to canadian law and an update on fetal consciousness that informs the debate on abortion emphasizing critical issues in health care from a canadian perspective this essential textbook will benefit students in philosophy nursing and health studies

a comprehensive and accessible introduction to contemporary debates on free will

this book provides a concise introduction to the main ideas and issues in philosophical theology while covering a wide range of classic and contemporary perspectives the text stresses a historical approach focussing primarily on the development of philosophical theology in the judeo christian tradition

the latest edition of arguments and arguing contains the same balance of theory and practice breadth of coverage current and relevant examples and accessible writing style that made previous editions so popular in hundreds of classrooms the authors draw from classic and recent argumentation theory and research contextualized with well chosen examples to showcase a narrative style of argumentation and the values and attitudes of audiences readers learn how to employ both formal and informal argumentative strategies in an array of communication forums from interpersonal interactions to academic debate to politics to business a newly added chapter on visual argumentation and a striking color photo insert demonstrate the value and power of visual elements in the construction of arguments the ability to argue is necessary if people are to solve problems resolve conflicts and evaluate alternative courses of action while many are taught that arguing is counterproductive and arguments should be avoided hollihan and baaske illustrate that arguing is an essential and fundamental human activity learning the art of effective argumentation entails a grasp of not only the strategies and principles of analysis and logical reasoning but also the importance of arguing in a positive and socially constructive fashion
