this textbook provides a concise introduction to micro and macroeconomics and demonstrates how economic tools and approaches can be used to analyze environmental issues written in an accessible style without compromising depth of the analysis central issues in the public policy debate on environmental problems and environmental policy are discussed and analyzed from an economics perspective the book is meant as an introductory and in some parts intermediate text for undergraduate students in environmental sciences without a background in economics it also serves as a companion for economists interested in a presentation of the micro and macro foundations of environmental economics in a nutshell the second edition has been revised updated and extended in many ways for instance by adding a microeconomic section on environmental technical change a discussion of the significance of technical change for a sustainable development and a considerably extended macroeconomic section on economic growth

in the past few decades economic analysis of law has been challenged by a growing body of experimental and empirical studies that attest to prevalent and systematic deviations from the assumptions of economic rationality while the findings on bounded rationality and heuristics and biases were initially perceived as antithetical to standard economic and legal economic analysis over time they have been largely integrated into mainstream economic analysis including economic analysis of law moreover the impact of behavioral insights has long since transcended purely economic analysis of law in recent years the behavioral movement has become one of the most influential developments in legal scholarship in general behavioral law and economics offers a state of the art overview of the field eyal zamir and doron teichman survey the entire body of psychological research that lies at the basis of behavioral analysis of law and critically evaluate the core methodological questions of this area of research following this the book discusses the fundamental normative questions stemming from the psychological findings on bounded rationality and explores their implications for setting the law's goals and designing the means to attain them the book then provides a systematic and critical examination of the contributions of behavioral studies to all major fields of law including property contracts consumer protection torts corporate securities regulation antitrust administrative constitutional international criminal and evidence law as well as to the behavior of key players in the legal arena litigants and judicial decision makers

despite rich archives of work on race and the global economy most notably by scholars of colour and global south intellectuals the discipline of political economy has largely avoided an honest confrontation with how race works within the domains it studies not least within markets by way of corrective this book draws together scholarship on the material function of race at various scales in the global political economy the collective provocation of the contributors to this volume is that

race has been integral to the formation of capitalism as extensively laid out by the racial capitalism literature and takes on new forms in the novel market spaces of neoliberalism the chapters within this volume also reinforce that the current political conjuncture marked by the ascension of neo fascist power cannot be defined by an exceptional intrusion of racism nor can its racism be dismissed as epiphenomenal raced markets will be of great value to scholars students and researchers interested in political economy and racial capitalism as well as those willing to explore how race takes on new forms in the novel market spaces of contemporary neoliberalism the chapters in this book were originally published as a special issue of the new political economy

this newly revised feature explains reviews and tests the important principles introduced in every chapter featured sections include chapter in a nutshell concept check am i on the right track graphing tutorials graphing pitfalls true false questions multiple choice questions fill in the blank questions and discussion questions available in a comprehensive version or in macroeconomics versions important notice media content referenced within the product description or the product text may not be available in the ebook version
