countless interest groups representing governments and civil societies try to lobby the european union effectively in pursuit of the desired legislation subsidies and more this book describes the everyday practice of lobbying in brussels drawing on extensive research and the author s personal experience the objective of these interest groups is to influence the eu decision making of which they see themselves as a stakeholder to the existing representative bodies such as the parliament and the council they add their practice of lobbying for a desired outcome by making their interests present or represented at the eu level in a roundabout way they contribute to the eu integration and also to its democracy so long as the following conditions are fulfilled

design now has many meanings for some it is the creation of value for others it is the conception and creation of artefacts for still others it is fitting things to people these differences reflect disciplinary values that both overlap and diverge all involve artefacts we always design things each definition considers people and purpose in some way each handles evaluation differently measuring against aesthetics craft standards specifications sales usage experiences or usage outcomes there are both merits and risks in these differences without an appropriate balance poor balance can result from professions claiming the centre of design for their discipline marginalising others process can also cause imbalance when allocating resources to scheduled stages balance is promoted by replacing power centres with power sharing and divisive processes with integrative progressions a focus on worth guides design towards worthwhile experiences and outcomes that generously exceed expectations this book places a worth focus wo fo in the context of design progressions that are balanced integrated and generous big big and wo fo are symbiotic worth provides a focus for generosity effective wo fo needs big practices

a historic shift has occurred in the organizational structures through which the lower classes in latin america express voice and find political representation with the political and economic reforms of the 1980s and 1990s networks of community based associations and nongovernmental organizations replaced party affiliated labor unions as the predominant organizations to which the lower classes turned this volume examines the new interest regime in argentina chile peru and venezuela through two extensive surveys one of individuals and one of associations undertaken in those nations capital cities contrary to common perceptions the new interest regime is neither a vibrant autonomous civil society nor a set of weak atomized organizations participation in associations is generally high compared to direct action as a strategy for pursuing collective interests and associations more frequently coordinate and engage the state than has sometimes been assumed however various forms of interaction with the state pose a classic trade off between representation and state control and the new interest regime is marked by representational distortion in that the lower classes are less likely to use the new structures than the middle classes within these general patterns distinct national models are emerging this volume represents the most ambitious and systematic effort to date to examine individual participation and associational life in latin america and to carry out a cross national analysis of new forms of political representation

whenever and wherever people communicate they contend with powerful and sometimes hidden systems of symbols meanings premises and rules pertaining to communicative conduct i e speech codes adding to thirty years of cultural communication research this ground breaking volume presents readers with a new set of original fieldwork based case studies that examine speech codes in on and offline settings around the world most importantly contending with codes in a world of difference culminates with a newly updated expanded and re energized version of speech codes theory well suited to the contemporary study of communication and culture co edited by dr gerry philipsen the originator of speech codes theory and dr tabitha hart a fellow speech codes scholar this edited collection is filled with examples stories and transcripts illustrating how to locate speech codes in a cultural arena how to discern what speech codes reveal about local culture what happens when multiple speech codes are in play and how people resist challenge negotiate or reconcile contending speech codes offering theoretical and methodological guidance for researchers and practical insight for students practitioners and laypeople this book is essential for anyone interested in learning more about the art of contending with speech codes in a world of difference

politicising europe presents the most comprehensive contribution to empirical research on politicisation to date the study is innovative in both conceptual and empirical terms conceptually the contributors develop and apply a new index and typology of politicisation empirically the volume presents a huge amount of original data tracing politicisation in a comparative perspective over more than forty years focusing on six european countries austria france germany sweden switzerland and the uk from the 1970s to the current euro crisis the book examines conflicts over europe in election campaigns street protests and public debates on every major step in the integration process it shows that european integration has indeed become politicised however the patterns and developments differ markedly across countries and arenas and many of the key hypotheses on the driving forces of change need to be revisited in view of new findings

compact timely well researched and balanced this institutional history of social security s seventy years shows how the past still influences ongoing reform debates helping the reader both to understand and evaluate the current partisan arguments on both sides
