innovative and timely this book explores how to develop economic education by providing a framework for improving research into the field sam allgood and kimmarie mcgoldrick analyse what is known about trends in course enrollments pedagogies and outcomes to identify gaps in understanding

these notes are based on the microeconomics lectures delivered in the master of science in applied economics msae programme at the city university of hong kong they have been delivered in the fall semesters of 2005 2007 the lectures are delivered over a period of thirteen weeks three hours per week one should always remember the time constraint involved in delivering lectures everything can not be covered therefore one has to be selective in what is taught this is the reason for calling these lectures core microeconomics the topics selected and

taught reflect our perceptions and value judgement about core topics in microeconomics also the students in this class at the city university of hong kong come from a very heterogeneous background which varies a lot medicine law mathematics engineering physics biology and of course economics the course is designed to teach all these heterogeneous students important topics in microeconomics in a span of thirteen weeks this is a tough task and many of these students are very ambitious and desirous of doing graduate studies in europe canada and the us the feedback on this course has been extremely good from students who are pursuing graduate studies in britain and the us these are lecture notes that vary in level at which different topics are taught and also the depth at which these topics are covered they should not be taken as a substitute for a textbook but as an aid for reading other textbooks

microeconomics provides a contemporary comprehensive and clear coverage of intermediate microeconomics within a european context the text aims to ensure effective understanding of the essential principles and is as a result unique in its patient and careful coverage of the core microeconomics topics including for example the analysis of consumer demand the cost of production and the pricing of products under different forms of industrial organization microeconomics brings theory to life with its many pan european examples and extended applications the extended applications include vat on domestic energy energy conservation land use restrictions in european agriculture monopsony and minimum wages laws highlighted examples include retirement pensions pricing strategy at euro disney and health care costs across europe

taking a modern approach to teaching standard microeconomic theory this text uses a number of carefully selected real life examples both domestic and international from today s headlines to help facilitate students understanding of core economic concepts all mathematical equations and calculations are addressed in maths notepad features as well as in occasional calculus references in selected appendices the text brings the modern theory of the firm transaction costs the agency problem search theory asymmetric information game theory and bilaterals contracting into the standard discussion of firms and markets while also incorporating results from finance literature on how markets adjust to risk and uncertainty including the roles of futures and swap markets

robert frank s microeconomics and behavior covers the essential topics of microeconomics while exploring the relationship between economics analysis and human behavior the book s clear narrative appeals to students and its numerous examples help students develop economic

intuition this book introduces modern topics not often found in intermediate textbooks its focus throughout is to develop a student s capacity to think like an economist
