from 21 to 24 september 2021 the iv international theological congress of the passionists took place in rome at the pontifical lateran university on the theme the wisdom of the cross in a pluralistic world it took place in the context of the jubilee celebrations for the third centenary of the foundation of the passionist congregation and aims to deepen the topicality of the cross in the context of the many contemporary areopagi during the four days more than 100 speakers scholars and specialists from many academic and cultural circles with an international reach from roman universities as well as from many nations of the various continents took turns the rich scientific cultural and spiritual experience of the congress is collected in three volumes over 1 100 pages the first of which has also been translated from italian into four languages english french spanish and portuguese

this book examines the rules governing the right to asylum in the european union drawing on the 1951 united nations convention relating to the status of refugees and the 1967 protocol francesco cherubini asks how asylum obligations under international refugee law have

been incorporated into the European Union the book draws from international law EU law and the case law of the European Court of Human Rights and focuses on the prohibition of refoulement the main obligation the EU law must confront Cherubini explores the dual nature of this principle examining both the obligation to provide a fair procedure that determines the conditions of risk in the country of origin or destination and the obligation to respond to a possible expulsion through this study the book sheds light on EU competence in asylum when regarding the different positions of member states the book will be of great use and interest to researchers and students of asylum and immigration law EU law and public international law

this book addresses the impact of migration on the formation and transformation of identity and its continuous negotiations its ground is the understanding of identity as a complex social phenomenon resulting from constant negotiations between personal conditions social relationships and institutional frameworks migrations understood as dynamic processes that do not end when landing in the host country offer the best conditions to analyze the construction and transformation of social identities in the postcolonial and globalized societies searching for novel epistemologies and methodologies the research questions here addressed are how identity is negotiated in migration processes and how these negotiations work in contemporary multiethnic Europe this edited volume brings to the field a novel convergence of theoretical and empirical approaches by gathering together scholars from different countries of Europe and the Mediterranean area from different disciplines and backgrounds challenging the traditional discipline division

what is the state of current European governance on new and emerging technologies and where is it going what is and what can be the

role of human rights in governance arrangements these are the main questions that this book answers for both european and non european scholars it provides a wide picture of current european governance notably in biotechnology nanotechnology and synthetic biology and discusses the model of responsible research and innovation which is gaining popularity within the european union under a human rights perspective it shows how human rights can contribute to governance frameworks without posing obstacles to research and innovation the theory presented in the book is followed by practical guidelines drawn from human rights law starting from the strasbourg court jurisprudence it provides a complete review of the wide range of rights that the european convention on human rights protects in light of the challenges of techno scientific advances this analysis will come in handy for private actors policymakers regulators as well as judges in solving hard cases raised by techno scientific progress in the future

this book explores the prospects of a global labour law system global labour law is understood as a still non coherent set of norms that at different levels and with different legal effectiveness regulate legal labour relations promote respect for fundamental social rights and condition the behavior of the multinational enterprise from a social justice and sustainability perspective the book deals with both international labour law and regulatory instruments of different kinds such as social clauses in international trade treaties or corporate codes of conduct transnational collective bargaining and eu directives on due diligence this complex normative system is partly reconstructed and partly subjected to critique with the aim of producing a hybrid handbook in which the elements of normative knowledge are accompanied by problematic reasoning about the forms contents and purposes of a possible global labour law the book will be of interest to academics researchers and policy makers working in the areas of labour law employment law international human rights law

and social justice
