it is widely known that such western institutions as the museum the university and
the penitentiary shaped japan s emergence as a modern nation state less commonly
recognized is the role played by the distinctly hybrid institution at once museum
laboratory and prison of the zoological garden in this eye opening study of japan s
first modern zoo tokyo s ueno imperial zoological gardens opened in 1882 ian jared
miller offers a refreshingly unconventional narrative of japan s rapid modernization
and changing relationship with the natural world as the first zoological garden in the
world not built under the sway of a western imperial regime the ueno zoo served not
only as a staple attraction in the nation s capital an institutional marker of national
accomplishment but also as a site for the propagation of a new natural order that was
scientifically verifiable and evolutionarily foreordained as the japanese empire grew
ueno became one of the primary sites of imperialist spectacle a microcosm of the
empire that could be traveled in the course of a single day the meaning of the zoo
would change over the course of imperial japan s unraveling and subsequent allied
occupation today it remains one of japan s most frequently visited places but instead
of empire in its classic political sense it now bespeaks the ambivalent dominion of the

human species over the natural environment harkening back to its imperial roots even as it asks us to question our exploitation of the planet's resources
