values both constrain and enable behaviour they are a vital source of meaning in human life the values legal education imparts or generates impact upon the character of legal professionals the work of jurists impacts upon the quality of public discourse uses of values in legal education makes a start by showing how using values in legal education might fulfil the promise of legal education

using literature as a source of challenges to questions in philosophy and law this book explores the inculcation of the legal subject and the relationship between modernism and postmodernism as well as how such concepts might evolve in the construction of community ethics

skills ethics and values for legal practice is the second edition of wolski legal skills a practical guide for students the text has been completely revised with a greater focus on ethics and values the second edition assists readers to develop the skills required to interview and advise clients proficiently conduct legal research analyse and solve legal problems write effective and succinct legal letters and documents

negotiate and mediate disputes and litigate a range of matters before a court of law it also provides indepth analysis of the ethical and professional responsibilities of a practitioner when dealing with clients the court opponents and other participants in alternative dispute resolution processes since the last edition developments in a number of skills areas have necessitated the creation of two new chapters ethics values and professional responsibilities and mediation and collaborative law

the value of money by benjamin mcalester anderson jr ph d is a rigorous and intellectually powerful treatise that explores the complex foundations of monetary theory economic value and price dynamics first published in the early 20th century this classic work challenges prevailing assumptions of the quantity theory of money and offers a nuanced and multi dimensional understanding of the nature and functions of money in an evolving capitalist economy anderson organizes the book into four distinct yet interconnected parts part i the value of money and the general theory of value lays the groundwork by exploring how value itself is formed chapters examine marginal utility cost of production the capitalization theory and subjective value theory in relation to money part ii the quantity theory this section critiques the mechanical and oversimplified equation of exchange framework anderson investigates velocity of circulation transitional vs normal tendencies and the relationship between money supply credit volume trade activity and speculation notably he critiques prominent quantity theorists using vivid metaphors like dodo bones and buried cities adding both sharp analysis and wit part iii the value of money delves into the practical and historical aspects of money its origin its evolving functions and its role in international gold movements credit systems and central banking operations anderson connects these topics with real world developments in the u s and abroad part iv the reconciliation of statics and dynamics here anderson attempts to reconcile classical equilibrium theory statics with dynamic real world market behaviors dynamics emphasizing the limits of abstract models when applied to live economies with methodical precision anderson opposes overly simplistic monetary models and brings to light the interplay between money credit trade and banking behavior his thinking anticipates many modern critiques of monetarism and remains relevant in contemporary discussions on monetary policy inflation and financial regulation this book is essential for students of economics banking professionals policy makers and anyone seeking to understand the philosophical and practical complexities of monetary value

however unlike conventional legal theory this volume seeks to provide an answer in terms of a general social theory a methodology that answers this question in a manner applicable not only to law but also to all the other complex and highly differentiated systems within modern society such as politics the economy religion the media and education this truly sociological approach offers profound insights into the relationships between law and all of these other social systems

in the value of money benjamin m anderson presents a profound exploration of monetary theory and its implications on economic behavior written in a clear yet sophisticated style anderson delves into the intrinsic characteristics of money dissecting its role as a medium of exchange a unit of account and a store of value contextually situated against the backdrop of the early 20th century economic landscape this work responds to the prevailing debates surrounding the gold standard and the emerging monetary policies of his time anderson s incisive arguments and rigorous analysis make it a compelling study for both economists

and lay readers alike ben m anderson was a prominent economist and a pioneering figure in the field of monetary economics his experiences as a banker during the tumultuous economic transitions of the 1920s and 1930s heavily influenced his perspective on the importance of a stable monetary system his scholarly upbringing coupled with a deep understanding of real world economic applications equipped him with a unique vantage point to tackle the complexities of currency and value for those interested in the intricate interplay between money and economic dynamics the value of money is an essential read anderson s rigorous analysis not only illuminates historical monetary policies but also provides timeless insights relevant to contemporary economic discourse this book is invaluable for scholars students and practitioners seeking a thorough grasp of monetary principles and their far reaching implications

jennifer nedelsky claims that we must rethink our notion of autonomy rejecting the usual vocabulary of control boundaries and individual rights if we understand that we are fundamentally in relation to others she argues we will recognize that we become autonomous with others

the rise of technology and ease of spread of information has facilitated the diaspora of new ideas in the community the penetration of new ideology and new values challenges the status quo of value and morality in our community while this can be seen as an opportunity to evolve as a nation the introduction of radical and separatism brings chaos to the community this issue is not only experienced in indonesia but also in the whole world the needs for a solution and academic forum to discuss this postmodernity in society bring us to the the 4th international conference on law education and social sciences iclsse 2022 this conference is an international forum to disseminate knowledge and research development among researchers scholars professionals and those interested in research interests in law and social sciences and social education this conference was organized by the faculty of law and social sciences universitas pendidikan ganesha the theme of this fourth conference is race ethnicity and nationalism in postmodern society opportunities and challenges

the relationship between islamic law and international human rights law has been the subject of considerable and heated debate in recent years the usual starting point has been to test one system by the standards of the other asking is islamic law compatible with international human rights standards or vice versa this approach quickly ends in acrimony and accusations of misunderstanding by overlaying one set of norms on another we overlook the deeply contextual nature of how legal rules operate in a society and meaningful comparison and discussion is impossible in this volume leading experts in islamic law and international human rights law attempt to deepen the understanding of human rights and islam paving the way for a more meaningful debate focusing on central areas of controversy such as freedom of speech and religion gender equality and minority rights the authors examine the contextual nature of how islamic law and international human rights law are legitimately formed interpreted and applied within a community they examine how these fundamental interests are recognized and protected within the law and what restrictions are placed on the freedoms associated with them by examining how each system recognizes and limits fundamental freedoms this volume clears the ground for exploring the relationship between islamic law and international human rights law on a sounder footing in doing so it offers a challenging and distinctive contribution to the literature on the subject and will be an invaluable reference for students academics and policy makers engaged in the

legal and religious debates surrounding islam and the west

does gender make a difference to the way the judiciary works and should work or is gender blindness a built in prerequisite of judicial objectivity if gender does make a difference how might this be defined these are the key questions posed in this collection of essays by some 30 authors from the following countries argentina cambodia canada england france germany india israel italy ivory coast japan kenya the netherlands the philippines south africa switzerland syria and the united states the contributions draw on various theoretical approaches including gender feminist and sociological theories the book s pressing topicality is underlined by the fact that well into the modern era male opposition to women s admission to and progress within the judicial profession has been largely based on the argument that their very gender programmes women to show empathy partiality and gendered prejudice in short essential qualities running directly counter to the need for judicial objectivity it took until the last century for women to begin to break down such seemingly insurmountable barriers and even now there are a number of countries where even this first step is still waiting to happen in all of them there remains a more or less pronounced glass ceiling to women s judicial careers

this new book integrates the legal and ethical aspects of healthcare practice it presents a clear and comprehensive overview of topics relevant to a variety of allied health disciplines

this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

this book presents a comprehensive defence of legal positivism on the basis of a novel account of social conventions marmor argues that the law is founded on constitutive conventions and that consequently moral values cannot determine what the law is on the basis of a theory of social conventions and an analysis of law s authoritative nature the book sets out the scope of law in relation to moral and other critical values the book also maintains however that moral values are objective it comprises a detailed analysis of the concept of objectivity arguing that many aspects of the law and of moral values are metaphysically objective

through six accessible essays the author invites students of the law to look beyond accepted american legal practices one learns why appellate courts always have an odd number of judges why the power of judges depends partly on accurate court reporting and unitary opinions of the court how common law rules can be unconstitutional and many other pressing legal issues
