Kevin Patton divides the lab activities typically covered in a p lab into 42 subunits allowing instructors the flexibility to choose the units and sequence that integrates with lecture material. Basic content is introduced first and gradually more complex activities are developed. Features include procedure check lists, coloring exercises, boxed hints, safety alerts, separate lab reports, and a full color histology mini reference.

The laboratory exercises in this manual are coordinated with Human Biology, a text that has two primary functions: 1 to understand how the human body works and 2 to understand the relationship of humans to other living things in the biosphere. This laboratory manual can be adapted to a variety of course orientations and designs. There are a sufficient number of laboratories to permit a choice of activities over the length of the course. Many activities may be performed as demonstrations rather than as student activities, thereby shortening the time required to cover a particular concept.
